The Rollins-McCulloch Correspondence—The Municipal Imbroglio—Louisiana Affairs—Gen. Buchanan's Action Sustained—The Tax Bill—The Mission to Paraguay—Currency Matters, &c.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, June 13, 1868.

CORRESPONDENCE OF COMMISSIONER ROLLINS AND SECRETARY M'CULLOCH.

The following, in addition to the correspondence which has already taken place between Commissioner Rollins and the Secretary of the Treasury, concerning the recent letter of resignation of the former, was to-day sent to Mr. Rollins, endorsed upon the communication, which was again returned: This communication is partial, because it attributes the present deranged condition of the Internal Revenue service to the removals and appointments made by the President, while it must be clear to the mind of the Commissioner that this demoralization is attributable in part to antagonism between the executive and legislative branches of the Government, which has prevented harmony of action between them in regard to appointments, and to the Tenure of Office act, but mainly to the high duties upon distilled spirits, tobacco, &c., which have created an irresistible temptation to fraud on the part of Revenue officers, as well as on the part of manufacturers, dealers and others. It is incorrect in that it alleges that the numerous recommendations of the Commissioner for the removal of Assessors and Collectors, even for the grossest misconduct, had been always disregarded, while the truth is that in all cases in which recommendations for removals were accompanied by the evidence of incompetency or misdemeanors on the part of the officers, the recommendations were promptly responded to by the President. It is unjust and disrespectful to the President, because the records of the bureau show the falling off of the revenues in the districts in which removals were made by the President in 1866 was not comparatively greater than in the districts in which no changes took place. That in fact the revenue of the fiscal year, ending June 30th, 1867, during which the removals were entirely satisfactory, coming up very closely with the liberal estimate of the Department while the demoralization of the service and the decline of the revenues chiefly occurred during the present fiscal fiscal year, long after the officers removed by the President had been reinstated and others whose nominations had been opposed by the Senate had taken the places of the appointees of the President. It was for these reasons and no other that the communication could not be received, and it was returned to the Commissioner. The return of it is also justified by the fact that copies of it were sent to the press before it was handed to the Secretary. It must, therefore, have been intended for the public rather than for the files of the Department.

[Signed] HUGH McCULLOCH,
Secretary of the Treasury.

TREASURY DEPARTMENT, June 13, 1868.

THE MUNICIPAL IMBROGLIO.

The Mayor *ad interim* called a meeting of the City Council this afternoon. Only the Conservative members and the white Republican Aldermen from the First ward came together. The City Hall chambers having been locked upon them, they adjourned to the law buildings in the same neighborhood. They passed a resolution addressed to the Bank in which the corporation funds are kept directing it not at present to honor any drafts on municipal account, or not until the present difficulties shall have been adjusted. Action was also taken to ascertain by what authority the Chief of Police had been excluded from the city hall. The Police Board, whose next meeting will be on Thursday next, will inquire into the circumstances attending this question. The Mayor *ad interim* to-day handed Mr. Bowen a letter, concluding as follows: Being advised by counsel and fully believing the two boards have acted strictly in accordance with law in the premises, I have to request that you will immediately vacate the office of Mayor, the duties of which you are exercising, until such time as the question touching your right to said office shall have been properly determined by competent authority.

Mr. Bowen laid the letter aside to be read at his convenience. The Register continues to draw and the Mayor to countersign checks on the First National Bank for the salaries of the officers, but as the accounts are overdrawn, if for no other reason, they are not paid.

AFFAIRS IN NEW ORLEANS.

Major Keeler, of Gen. Buchanan's staff, reached here last evening with dispatches for Gen. Grant relative to affairs in New Orleans. To-day the Major, accompanied by Col. Mann, one of the members of Congress elect from Louisiana, visited the President, the Secretary of War and Gen. Rawlings, Gen. Grant being absent, and laid the matter before them. The result was the following instructions, sent about four o'clock this afternoon to Gen. Buchanan, by order of Gen. Schofield, approved by Gen. Grant, through Gen. Rawlings, and by the President:

GEN. BUCHANAN: Your action is sustained. The officers elected under the new constitution cannot be installed without your consent, until the time fixed by the act of Congress. It is deemed advisable for you to await the act of Congress now to become a law before permitting the Legislature to meet or officers to be installed.

MINISTER TO PARAGUAY.

Gen. McMahon, of New York, is here. His nomination as Minister to Paraguay will not be acted on by the Senate on account of the war in which that country is engaged, and consequent difficulty of reaching it. He is a candidate for Minister to Mexico, and if nominated would probably be confirmed.

THE TAX BILL.

The opinion continues to prevail among members of Congress that the tax bill will not pass, owing to want of time for both Houses to act upon the measure. It is thought, however, that several of the sections with regard to whisky and tobacco may be embodied in separate bills and become a law.

CURRENCY MATTERS.

The Fractional Currency printed for the week was $457,000; one and two dollar notes, $234,000; shipments of former, $424,-635; of United States Notes, $707,125; National Bank Currency destroyed, $608,300.

FORTIETH CONGRESS.

Senate Proceedings--The Tax Bill Further Considered in the House.

[By Telegraph to the Pittsburgh Gazette.

WASHINGTON, June 13, 1868.

SENATE.

Mr. TRUMBULL'S bill extending the time in which men guilty of capital offences against the United States may be punished, passed.

Mr. CONKLING presented a petition of 120 citizens of Colorado against her admission as a State. Tabled.

Mr. FOWLER introduced a bill directing the Treasurer of the United States to purchase ground for the erection of a Custom House at Nashville.

Mr. HARLAN called up the bill relating to the Contested Election in the City of Washington.

During the debate thereon the Bank bill came up as the special order, and was postponed till Monday.

Mr. DAVIS offered an amendment to the Washington City bill, that the Mayor shall hold no other office or place of trust, honor or profit under the United States, which he subsequently withdrew, substituting another forbidding the Mayor to receive pay or emolument for any other office. This, after further discussion, was lost by a party vote—9 to 21.

Mr. BUCKALEW moved to amend by striking out the words "satisfactory evidence," and insert "regular official returns." Lost by the same vote.

Several amendments were offered and rejected, and the bill finally passed without division.

Mr. CATTELL introduced a bill to provide for the further issue of temporary loan certificates for the purposes of redeeming and retiring the remaining outstanding compound interest notes. Referred to the Committee on Finance.

The Senate went into executive session and soon after adjourned.

HOUSE OF REPRESENTATIVES.

The House met at 11 o'clock.

On motion of Mr. RANDALL, the Comptroller of Currency was instructed to furnish a statement of the amount of dividends declared by the National Banking Associations since their organization, amount carried to real estate account, &c.

The SPEAKER proceeded, as the business of the morning hour, to the call of Committees for reports of a private character.

On motion of Mr. CLARK, of Kansas, the President was asked for further information relative to the treaty for the lands of the Osage Indians, and requested to withhold the treaty from the Senate.

Mr. LYNCH introduced a bill to amend the act of July 29th, 1850, to provide for holding courts of the United States in case of sickness or other disability of Judges of the District Court. Referred to Judiciary Committee.

Mr. JULIAN introduced a bill relative to lands sold for non-payment of federal taxes or under judgment or decree of United States Courts in States lately in rebellion. Referred to Committee on Public Lands.

Mr. MYERS, from the Committee on Patents, reported a bill for the relief of the widow and heirs of Thomas W. Harvey, deceased.

The wood screw patent bill, which was discussed until the expiration of the morning hour, went over till next Friday.

Mr. LOGAN gave notice that he would on next Monday move to suspend the rules to offer a resolution authorizing the appointment of a Committee to select a site for the Capital of the United States, on account of disregard of law, the disloyal element constantly showing itself in Washington with such bitterness toward the loyal, and disregard of the authority of the United States.

The House at twenty minutes past twelve went into Committee, and resumed the discussion of the tax bill, the section before the Committee being that relating to banks and bankers—section 113.

After debate, the question was taken on the amendment offered by Mr. PRICE last night, as modified, to rednce the tax on circulation from one-sixth of one per cent. per month to one-twefth of one per cent. per month. On a vote by tellers there were fifty-one voting in the affirmative, and fifty-one in the negative. The Chairman (Mr. Pomeroy) voted in the affirmative, and the amendment was adopted.

Mr. SCHENCK moved to add to the section a tax of one quarter of one per cent. each month on the average amount of public moneys in possession to the credit of the Treasurer or any disbursing officer of the United States. Agreed to.

Mr. RANDALL moved to add to the section a provision that no money authorized to be collected under this bill shall be deposited in a National Bank in any city or place where a Treasurer or Assistant Treasurer of the United States is located. Agreed to.

Mr. MAYNARD moved to amend the section by increasing the tax on deposits from one-fourth to one-twelfth per cent. per month. Agreed to.

Mr. BLAINE, of Maine, moved to strike out the proviso exempting Savings Banks from taxation on deposits. Rejected.

Mr. HOLMAN moved to amend the section by taxing United States bonds owned by Banks 2 per cept per annum. Rejected—25 to 75.

The section as amended imposes a tax of one-twelfth of 1 per cent. each month on the average amount of deposits of money other than public monies of the United States, a tax of one-fourth of 1 per cent. each month on the average amount of public monies on deposit, a tax of one-fourth of 1 per cent. each month on the capital beyond the average amount invested in United States bonds, and a tax of one-twelfth of 1 per cent. on the average amount of circulation.

SEC. 114, which taxes State banks 10 per cent on their circulation, being read, Mr. MORRILL moved to amend by providing that the section shall not apply to Banks that are in liquidation and have not issued notes for circulation for more than one year. Agreed to.

Mr. PETERS moved to postpone the operation of the section until the 1st of June, 1870. Rejected.

Mr. HUBBARD, West Virginia, offered a new section to tax United States interest bearing bonds, whether held by any person, bank association, company or corporation, one per cent per annum.

Mr. HOLMAN proposed a substitute taxing United States bonds 1½ per cent. per annum. Rejected by a vote of 25 to 77.

Mr. HUBBARD'S proposition was rejected.

Section 115, taxing brokers' sales, was also not amended.

No amendment was made to section 116, taxing carriages, watches, plate, &c., except to limit the tax on pianos, organs, harps, &c., and instruments valued at over $200, and the section was transposed so as to place it before section 97, relating to stamps.

No amendment was made to section 117, in relation to passports.

Section 118, relating to insurance companies, having been read,

Mr. JUDD moved to amend by making the tax of one and half per cent. apply to the net profits instead of gross receipts. Rejected.

Mr. STEWART moved to extend the tax to Life Insurance Companies. Agreed to.

Mr. GRISWOLD moved to strike out the tax of three per cent. on gross receipts of agencies of Foreign Insurance Companies. Rejected.

Mr. PETERS moved an additional section imposing a tax of two per cert. on gross receipts of Safe Deposit Companies. Agreed to.

Section 119, taxing transportation companies, having been read, Mr. TWICHELL moved to reduce the tax on gross receipts from 2½ to 2 per cent. After discussion the amendment was agreed to.

Mr. CORNELL moved to amend by making the tax on steamboats in lieu of all tonnage. Rejected.

Mr. COBURN moved to amend by exempting from tax horse railroad companies in cities and towns of less than 75,000 population, where their gross receipts for the preceding year do not exceed their gross expenses.

Mr. PILE moved to amend the amendment by striking out reference to population. Agreed to.

Mr. COBURN'S amendment as amended was agreed to.

Mr. TRIMBLE, Kentucky, moved the exemption of companies whose gross receipts do not exceed $2,000 dollars per annum be extended to $6,000. He spoke in the interest of toll road companies which kept up the only roads that the poor people generally used.

Mr. SCHENCK said he doubted whether there was any use in arguing against the proposition where the interest of the poor man could be pleaded against the taxation of capitalists. He spoke of the Street Railroad Companies exacting one cent additional in fare for the ½ of a cent which they had to pay in taxes, which was one method of making money out of taxation.

Mr. PILE said street railroads in St. Louis had never charged that extra cent.

Mr. JUDD spoke in defense of street railroad companies.

After much discussion the question was taken on Mr. TRIMBLE'S amendment, and it was rejected.

Mr. HIGBEE moved to amend by exempting from tax stage coach companies. Rejected.

Mr. DRIGGS moved to exempt from tax steamboats and ferry boats whose receipts have not paid actual expenses. Rejected.

Mr. INGERSOLL moved to amend by striking off two per cent. on gross receipts of transportation companies and inserting seven per cent. on the receipts.

Mr. INGERSOLL'S amendment was rejected—22 to 75.

At length the debate was closed on section 119.

Mr. TRIMBLE moved to exempt from tax companies whose gross annual receipts do not exceed $4,000 instead of $2,000. Agreed to.

Mr. COBB moved a proviso that railroad companies which had received grants of land from the government of the United States shall pay four per cent. on their gross receipts. Rejected.

Section 120, taxing express and telegraph companies, was considered.

On motion of Mr. SCHENCK, the tax on the gross receipts of express companies was reduced to 2½ per cent., the tax on the gross receipts of sleeping cars was fixed at 2½ per cent., and on those of telegraph companies at 3 per cent.

The Committee rose and the House adjourned.

—The steamship City of Antwerp, from Liverpool via Queenstown, arrived at New York yesterday.

—A British ship arrived at New York on Saturday with a cargo of hemp from Philipine Islands.

—Colorado cannot be admitted over a Presidential veto, as six or seven Republican Senators are opposed to it.

—Timothy Heenan, who was shot a few days ago in Philadelphia, died in that city yesterday. He was a brother of John C. Heenan.

—Secretary McCulloch has renewed to the President his readiness to resign his office, if it is the wish of the President that he should do so.

—Mayor Thomas, of St. Louis, has officially requested David Amlin, Harbor Master, who was convicted of adultery a few days ago, to resign.

—At the Radical Convention, in Alexandria, Va., on Friday last, a colored man was nominated as an independent candidate for State Senator.

—Neither Texas or Virginia are likely to complete their organizations, and get in before the adjournment. So the Democrats will not get their electoral votes this fall.

—A daring but unsuccessful attempt was made in Brooklyn on Friday night to rob the cashier of the book firm of Appleton & Co. of nearly $5,000. The rogues escaped.

—There was a fine yacht race on East river, on Saturday. The distance of twenty-eight miles was accomplished by the Eliza in the fast time of three hours and twenty minutes. Prize $500.

—General Grant has advised the Chairman of the Registry Board in New Orleans not to make any proclamations which will conflict with those of the Military Commander of the District.

—Col. Wallace, of the Twelfth U. S. Infantry, stationed in Washington, refused to allow the band of the regiment to participate in the recent ceremonies of strewing with flowers the graves of Union soldiers. Army officers are indignant.

—A member of the Board of Aldermen of Washington, who was elected as a Republican, has turned traitor and joined the Democracy. He holds a place in the Treasury and fears the loss of his official head, and deserts his principles for $1,200 a year.

—G. H. Martin, who robbed the Merchants Union Express Company in New York in May last, was brought before the police magistrate at Hamilton, Canada, on Saturday, and committed for trial. Application has been made for his extradition.

—A dispatch from Montreal says officers of the United States army are said to be on the frontier between Rouse's Point and Ogdensburg with instructions from General Grant to ascertain the correctness of the report of Fenian arms being secreted there.

—Mr. Seward has for some time past been urging the Senate Foreign Affairs Committee to take up the Danish treaties; but the Committee will probably take no action on them this session. The treaty for the purchase of the Bay of Samana will, it is thought, share the same fate.

—A dispatch from Ottawa, Canada, says: In regard to the arrival in this country of pauper emigrants destined for the western States, it is expected the government will adopt the American system of compelling captains of vessels to enter into bonds for the sustenance of all paupers for certain periods after their arrival here.

—The Missouri members have received news from Missouri that the Republicans there are determined not to permit Senator Henderson to remain in the party. The county and district conventions are all reading him out. In return he is looking to the Chase movement among the Democrats, as affording him a chance to go over and gain a foothold on the other side.

—An explosion occurred in the steam saw mill of Stephen Clark, near Cumberland, Maryland, on Wednesday last. The entire building was shattered, and Dr. H. Scott Thurston, the clerk, Morris Sibley, engineer, and a man named Parks, were instantly killed. Two other workmen were badly injured. The disaster is alleged to have been caused by the carelessness of the engineer.

—A disastrous conflagration occurred at Marquette, Lake Superior, on Thursday night. The entire business part of the town, including forty-three stores, the railroad machine shops, the extensive docks, public offices, and several residences—over one hundred buildings—were consumed. The loss is estimated at over a million and a half of dollars, and there is comparatively little insurance.

—Girardin has made offers to the six most prominent liberal dailies in Paris, which he proposes to unite into a single paper. But Berlin, of the *Debats*, refused to make the trade; some of the other journals were not unwilling. The new paper would start with a subscription list of one hundred and twenty thousand copies, and would be a more formidable opponent than the French government has, as yet, had to deal with.

—Considerable damage was done on Friday last in Orange Valley and the low lands of New Jersey, by the heavy rain and floods. Many of the inhabitants were obliged to leave their houses and seek higher grounds for safety. Works of the large tobacco factories and several other factories are stopped, access to them being only by boats. The canal above Trenton burst its banks causing some damage to property. No lives reported lost.

—A special to the Boston *Post* says: It was said to-day by a distinguished Senator, supposed to be in the confidence of the Administration, that Secretary Browning would tender his resignation to the President in less than a week. The same Senator discredits the report that McCulloch will retire. General Steadman announced to-day, after a long conference with President Johnson, that the entire Cabinet would be changed before the fourth day of July next.

—Jas. Welsh, Mike Parker, Ned Cummings and David Haley, arrested by the United States authorities at Louisville, Ky., charged with the murder of the negro James Macklain, *alias* Taylor, have been admitted to bail in $20,000, and the case continued until next term. The negro Taylor, it will be remembered, was taken out of jail and hung for an alleged outrage upon a white lady at Frankfort. The District Attorney announced that he would be unable to proceed with the trial because Rev. L Young had refused to answer questions.

—A banquet was given by the New York Press Club to the ladies of the Sorosis, at Delmonico's, on Saturday afternoon. About forty gentlemen and the same number of ladies were present. Thomas McElrath presided and speeches were made by Wm. H. Burleigh, Wm. Stuart, A. D. Richardson, A. Cummings, Thomas W. Knox, Oliver W. Johnson, Mr. Lyman, and others. The assemblage was composed of many of the distinguished literary ladies of New York, including the Misses Carey, Mrs. Cralay and Miss Rose Eytinge. The entertainment was a success, and will probably lead to further reunions.

Democratic Presidential Intrigues.

A Washington special of the 13th, to the New York *Commercial Advertiser* says:

The Democratic politicians are very busy here. The Chase movement is evidently gathering strength, and is sustained by the administration as a means of dividing the Republicans, and breaking down the Radical influence.

Assurances have been received here from New York to the effect that the nomination of Chase will be sustained by leading Republicans there. [All bosh!]

The Chase platform as now presented is: A frank acceptance of all the accomplished events of the war, both financial and political; the submission of all disputed points to the decision of the Supreme Court; a return to specie payments, a strict economy and contraction of national expenses, universal amnesty, and the relegation of the suffrage question to the respective States under the authority of the Constitution.

The return of Chief Justice Chase from Richmond is looked for with interest, when a consultation and comparison of views will take place, that will decide the question of his nomination.

It is believed that the Pendleton men will not offer any serious opposition to Mr. Chase, in case it should be clearly proven that his nomination is essential to the success of the party.

THE Baltimore *American* insists that the rumored railway combinations supposed to be on the tapis in this quarter, would not, even if consummated, actually affect the interests of the Connellsville road. The latter company could still reach the Lake, and the connections thence northward. The *American* adds:

No fear need, therefore, be felt as to the connections beyond Pittsburgh; while the business of that city itself, and that brought to it by the Ohio river, now being improved for uninterrupted navigation, and the local trade of the country between Cumberland and Pittsburgh, demands and will insure the immediate completion of the Connellsville Railroad, which all the arts and efforts of the Pennsylvania Central, of which the consolidation is the latest fruit, cannot prevent. The interest which the Fort Wayne Road was expected to acquire in the Connellsville by subscription to its bonds is now being readily transferred to other parties, and the only effect of the preferences for a Philadelphia rather than a Baltimore connection shown by the Fort Wayne will be to increase the proportion which this city will hold in the proprietorship of a line which of a right should belong to her exclusively.

The most active steps are now about to be taken to place the road between Connellsville and Cumberland under contract, and within a few weeks the heavier sections may be expected to be commenced, with a view to their vigorous prosecution, and the opening of the entire line within two years.

A WASHINGTON special of the 13th, says: The Republican National Committee has completed its arrangements for the approching campaign, but the canvass will not commence until July, and will not be active until the latter part of August.

Great confidence is manifested in the result. The Republican organization is perfect in every State. A list of States has been made out which it is essential to carry for the success of the ticket.

The strength of the party will be concentrated in these States, but the others will not be neglected. The utmost exertions will be made to elect General Grant by an overwhelming majority, and also to maintain the Congressional ascendency of the Republicans.

THE Rolla (Missouri) *Express* reports that the Democrats of Phelps county, Missouri, have had a meeting pursuant to "orders from the State Central Committee," and passed thrilling resolutions, among which was the following:

Resolved, That while we recognize in the Hon. Petroleum V. Nasby the true Democrat and fearless patriot, and while we acknowledge his good intentions, we would respectfully request him to discontinue writing letters in defence of the Democratic party, as we suspect that some of his efforts are calculated to do more harm than good in some localities.

The Pittsburgh Gazette.

LOVE'S TRIFLING.

BY THOMAS MOORE.

If in loving, singing, night and day,
We could trifle merrily life away,
Like atoms dancing in the beam,
Like day-flies skimming o'er the stream,
Or Summer blossoms, born to sigh
Their sweetness out, and die,—
How brilliant, thoughtless, side by side,
Thou and I could make our minutes glide!
No atoms ever glanced so bright,
No day-flies ever danced so light,
Nor Summer blossoms mixed their sigh
So close as thou and I!

ECHOES.

BY THOMAS MOORE.

How sweet the answer Echo makes
To Music at night,
When, roused by lute or horn, she wakes,
And far away o'er lawns and lakes
Goes answering light!

Yet Love hath echoes truer far,
And far more sweet
Than e'er beneath the moonlight's star,
Of horn, or lute, or soft guitar,
The songs repeat.

'T is when the sigh, in youth sincere,
And only then,
The sigh that's breathed for one to hear,
Is by that one, that only dear,
Breathed back again.

—The recent heavy rains have quenched the fires in the pine woods of Wisconsin.

—Wisconsin has a new village inhabited by one hundred Poles, who have just come over.

—Juarez is said to be unusually lucky just now, as he has but two revolutions on hands.

—The Philadelphia *Age* has an elegant new office on South Seventh street, near Market.

—The New York Yacht Club owns 41 vessels. Their regatta takes place on the 18th inst.

—Massachusetts authorities are cultivating fish. Their latest success has been with black bass.

—25,000 pounds of Malaga raisins were produced on a single grape farm in California last year.

—Dudley B. Davis, of Salem, Mass., has, at different times saved eighteen persons from drowning.

—Mr. Pendleton is just about such a man as was James Buchanan, minus his extensive reputation.

—The grandfather of the Empress of the French was a Scotch-Irish-Englishman named Kirkpatrick.

—London now contains the five finest sopranos of the day, Patti, Tietjens, Kellogg, Lucca and Nillssen.

—Some persons profess to be shocked at the fact that Lord Brougham's remains are to remain in Cannes.

—Give us peace says Grant. But the Democrats are not satisfied with piece, they want the whole plunder.

—The whole French army being now armed with the Chassepôt gun, rumors of war are again prevalent.

—Fessenden is going to vote for General Grant. This is suspicious. What can Gen. Grant have done to deserve this?

—A boy in Janesville, Wisconsin, has been christened Schuyler Colfax. Of course with such a name the boy is doing well.

—Gen. Lee doesn't allow his students to haze. At Harvard, the students do haze, but when the authorities find it out they are mist.

—A beautiful Mosaic pavement, supposed to have formed a part of Sallust's Villa, has been discovered by excavators at Rome.

—The Empress of the French is to make a tour of Ireland this summer, probably for the purpose of visiting the home of her ancestors.

—Sharp Mr. Sewvrd, anxious for the speedy peopling of Alaska, has circulated the rumor of a plethora of gold in that new acquisition.

—Napoleon has decided not to visit Berlin this summer. Berlin is a disagreeable, dusty desert in the hot season, and Napoleon probably knows it.

—The Chicageese think that the Chinese surely cannot think of leaving this country without visiting their enormous metropolis of 150,000 inhabitants.

—The number of paupers, beggars, and starving people in London, is greater than the whole population of Pittsburgh, and all the surrounding little towns.

—Rochester has given a $25,000 residence to the President of the University there. Pittsburgh has more inducement than Rochester had to do the same thing.

—There are five hundred bachelors in Lawrence, Kansas, and a company is being formed for the purpose of bringing young ladies out from Massachusetts.

—A Miss Emma Maddern is playing soubrette characters in McVickers' theatre in Chicago. As Miss Emma has never married, she is Maddern ever now.

—Officers of the Engineer Corps of the French army are henceforth to be instructed in telegraphy, as hereafter the staff of every officer must embrace a certain number of telegraphists.

—Swiss papers seem to be regretting a rumor which asserts that Jeff Davis is coming to live in Geneva. Jefferson D. has but few admirers in the little Republic of the Alps.

—Dr. David Taylor's History of the Devil is to be published during the summer. It is said to be entertaining and to show quite an amount of erudition and research among infernal annals.

—There is an an aboriginal cricket club in Australia, and their first eleven is going to England. Prince Alfred, who saw them in Australia, says there is no eleven in England can beat them.

—The young Prince of Belgium is only nine years old, and yet is troubled with affection of the heart, a disease almost universal with less august young gentlemen who are about ten years older.

—Mrs. Julia Ward Howe, the authoress who speaks eight languages fluently, is now to start a New England Women's Club at Boston, and she invites all of the puritan daughters to lend a hand to help her along.

—Lucy Stone has reformed, she wears a common place grey walking suit, a chigon and a husband. At least thus equipped she made her appearance in New York the other day, and curious people are beginning to look upon her as the original of Hannah Thurston.

—The Chicago *Republican* has almost doubled its circulation, since it took its bold stand on the Impeachment question, and, as it argrees with us in its views, and is probably the best paper published west of Ohio, we are very glad of it.

—When General Franklin was a cadet at West Point, he was called upon by one of the visitors to come forth and drill the battallion; last week the General was a visitor at the Point, and took care to have one of the cadets called out in the same way.

—A pamphlet recently published in Paris under the auspices of the French Peace Society, asserts that from 1853 to 1866 no less than 1,753,491 men perished on the different battle-fields of the world, and that the wars and warlike expeditions of the same thirteen years cost 47,830,000,000 of francs.

—In Evansville, Indiana, the other day some 50,000 people collected by the river bank to see a sharper walk the water in a pair of wooden shoes. Two canoes lashed together served as wooden shoes to the man who stood with one foot gallantly placed in each, and a double ended paddle placed in his hands.

—New York and Brooklyn papers, are continually denouncing the Nicholson pavement, and Chicago journals are just as constant in their praise. If we take Wood street as a fair specimen, we should certainly side with the Eastern papers, but we are in hopes that the Fifth street pavement may force us for once, to believe in Chicago.

—The Southern people have always claimed a superiority over the Northerners in culture and refinement, and Louisville has always been regarded as one of their strongholds, The ways in which they make good their claims are peculiar, for instance, the Academy af Music, in Louisville, is to be used for a lager beer saloon this summer.

A Pen-Picture of the Connecticut Democracy.

A New Haven correspondent writes of the Democratic State Convention:

It was a hard faced and hard-headed Convention. The most careless observer could not have mistaken it for a philanthropic or scientific gathering. The least enlightened gentlemen of color would have shrunk instinctively out of the hall, feeling that these were not his friends. Yet it was an assemblage of resolute, clear-headed, strong-willed men, with a deal more of insight than of philosophy, powerful if narrow, no mean antagonists for the party of moral ideas and enlarged sympathies. And they went as grimly and as steadily at their work as though the nomination at New York were not a matter of total uncertainty, and as though regiment after regiment of their line had not gone over to the enemy and pronounced for Chase.

THE Ogdensburg *Journal* says:

Several Republican papers notice the organization of the Tanners in this city, but do not seem to comprehend exactly what sort of an organization it really is. For the information of all, we would say that the "Tanners," as organized here, is a Republican Club, for the purpose of greater efficiency in the present campaign. It is similar to the old "Wide Awakes" of 1860. The uniform adopted is silver bronzed enamel cloth cape and cap, leather apron and "Wide Awake" torch. Nearly two hundred are already enrolled here. The name of "Tanners" has been adopted as most appropriate, from the fact that General Grant commenced life as a tanner, and that he learned the business so well that he was able to tan the whole batch of rebels who took up arms to destroy the country. A similar organization has been started at Chicago, and promises to be immensely popular. Every good, live Republican community should have an organization of the "Tanners."

CHIEF JUSTICE CHASE has written a letter, in which he says im eachment was the subject of conversation between himself "and not more than four or five Senators"

What business had he to converse with Senators at all upon the subject? What would he have thought of a Judge who conversed with "not more than four or five" jurymen about a case that was being tried before him?—*Chicago Journal.*

CAST IRON STOVES.—At a recent sitting of the French Academy of Sciences, a member read a paper on the injurious effects upon health of cast iron stoves, asserting that the heated surface generates hydrogen from organic matter raised to a high temperature. It was also said that, by the use of such stoves fevers were produced, bearing analogy to those generated by marsh gas.

PETROLEUM IN ENGLAND.—The British Parliament has had before it, and has probably passed a bill, which, it is said, will, in effect, stop the further use of petroleum, in various forms as a burning fluid, in the British kingdom; and the sale of all lamps for these kinds of fluid, and all portable illuminating gas machines, now so extensively used in this country.

IT HAS been found that punching holes in steel plates, instad of drilling them, injures the metal to the amount of one-third its strength, on account of the jarring. Careful annealing, however, restores them to their original condition. Conical holes, also, are found to be much better for steel plates than cylindrical, injuring the texture of the plate much less.

Financial Matters in New York.

Gold Closed at 140.

(By Telegraph to the Pittsburgh Gazette.)

NEW YORK, June 13, 1868.

MONEY AND GOLD.

Money steady, with a large supply seeking investment at 3@5 per cent. on call. Sterling quiet, at 10@10¼ for first class bills. Gold steady, opening at 140, declining to 139⅞ and closing at 140. Exports to-day $1,256,540.

GOVERNMENTS.

Government stocks more active and ¼@¾ per cent. higher. Coupons of '81, 116¾@116⅞; do. '62, 112@3¾112½; do. '64, 110¾@110¼; do. '65, 110¾@110¼; do. new, 113¼@114; do. '67, 113¾@113½; Ten-Forties, 106@106¾; Seven-Thirties, 109⅞@109¾. There is considerable short interest. The Treasury is largely behind in its deliveries of these bonds. The time for converting the second series of 7-30's has been extended to July 1st. The gold obligations of the Government falling due July 1st are $38,986,016, of which it is estimated, however, $1,567,500 are due Europe, which materially reduces the amount of gold to come on this market. It is estimated that six millions is to be sent to Europe to be applied to the interest of shares and bonds.

BANK STATEMENT.

Loans, $275,142,024; increase, $1,349,657; specie, $11,193,631; decrease, $314,900; circulation, $34,166,846; decrease, $21,313; deposits, $210,670,765; increase, $158,110; legal tenders, $69,202,840; increase, $380,812.

RIVER NEWS.

Both rivers continue to recede steadily at this point, with scant four and a half feet in the Monongahela, and five feet two or three inches in the Allegheny. The weather yesterday, was oppressively hot in the sun, and it is probable we shall have rain within the next day or two.

The Kenton from St. Louis has arrived, and the St. Mary's from Cincinnati was due last night, and will doubtless be found in port this morning.

The Grey Eagle, considerably behind time, arrived and departed for Parkersburg on Saturday.

The steamer St. Marys arrived at six o'clock last evening, and will depart for Cincinnati promptly at three o'clock this afternoon. As the river is getting up, she will start early. Passengers and shippers can be early at that hour.

The Wauanita, Capt. Thomas Shuman, is announced to leave for St. Louis to-day, as isalso, the R. C. Gray, Capt. Isaac Whittataker. These are both good boats.

The Julia No. 2, from Zanesville, is due here to-day, and will return as usual tomorrow.

The Mary Davage and America arrived at St. Louis from Pittsburgh Friday. The Success arrived there the same day from Fort Benton.

The Emma No. 3, was advertised to leave Cincinnati for Pittsburgh Saturday. She has on board the following items of freight for this port:

Ihmsen & Son, 25 bxs bottles, 2 osks broken glass; T. Coffin, 70 brls clay; Clerk & Co., 200 brls flour; Robinson & Best, 7 bxs glassware; Bingham & Lang, 3 bales hides; Beymer, Banman & Co., 10 bbls barytes; Nimick & Co., 50 tons pig iron; D. Wallace, 750 sks corn.

We have the following St. Louis items, under date of Thursday: The up stream business of our St. Louis and New Orleans packets nevar was better than this season, every boat having as much freight as could be desired to come up stream with. Shipments from this port to Vicksburg and New Orleans continue heavier than in any previous year.

The Princess, sunk in the Missouri, is abandoned. The river is rising here, but falling at Dubuque and Keokuk. The Missouri is rising at St. Joseph, but falling at Omaha.

The pilots of the steamer St. Paul, at Dubuque, who were getting $150 per month, struck for $200.

Good river business is anticipated through the year. The stockholders of the Barge Company are becoming warmly interested in the contest with the steamers, and will fight vigorously. Rates are unchanged. Barge line officers assert that they are getting twice as much freight as the steamers at the same rates.

The Sallie made the trip from Benton to this port in 11 days and 20 hours; passed the Success and Deer Lodge under way. Round trip, 61 days and 20 hours.

David Berlin, who fills the important office of harbor master here, was sentenced this morning to pay three hundred dollars fine and thirty days' imprisonment on a charge of open and notorious adultery, preferred by his wife. Some ten years ago the parties separated after they had lived together thirty years. Berlin meantime lived with another woman, who died recently. His wife, who had become old and poor, applied to him for an annuity sufficient to support her, but failing to get it, she entered prosecution just noticed.

Two more cargoes of wheat, aggregating 40,000 bushels have been sent to New York in bulk via New Orleans, freight and handling clear through 27c per bushel.

Helena (Montana) advices of the same date says: The Huntsville arrived from Benton on the 1st inst, and the Antelope on the 2d. The Henry Adkins started down on the 2d. The Peninah, Mountaineer and Antelope left Benton for St. Louis on the 4th.

A late Memphis paper says: The United States Marshal sold yesterday, at auction, the dilapidated Milbrey. She was started at $600, and after a fierce contest of bidding between some creditors, she was finally knocked down to Capt. Robert Wood, of Paducah, for $2,950—a good price. She will be taken to Paducah and put in repair, and will ply in the Cairo and Paducah trade. The Eau Claire was also put up and knocked down to Messrs. McCauley & Covington, of Paducah, for $1,810. She will be taken to Paducah to be used as a towboat. She is of very little account.

Mike Keef, formerly mate of the steamer Starlight, was arrested at St. Louis Wednesday, on a requisition from the Governor of Louisiana, charged with burning that boat near New Orleans in April last. He will be taken South.

GOLD closed in New on York Saturday at 140.

THE young Republicans of Harrisburg have resolved to organize a GRANT Club, to include every Republican voter in that city.

RELEGATE the suffrage question to the respective States, as much as they please, the Democracy will still find that Mr. CHASE stands upon universal suffrage ground, as he has himself stated it.

SECRETARY M'CULLOCH replies to Mr. ROLLINS very sharply, and attempts to specify the alleged mis-statements in the first letter of the Commissioner. Mr. ROLLINS will again respond, and it seems probable that out of this correspondence the public will gather some useful information as regards the management of the Revenue Department.

IT is understood that the President will allow the Arkansas bill to become a law, but that he is preparing an elaborate veto of the Omnibus bill, to which he will especially object that it admits Alabama and Florida, in violation of the reconstruction laws and without the consent of their people. He will avail himself of the occasion, also, to present again his own reconstruction policy, as a card for the New York Convention.

THE Pittsburgh *Post* publishes a card from "a Democratic voter of thirty-seven years standing," who declares that the postponing of the County Convention, until after the National Convention, was done "upon a mere lawyer's excuse;" that some other was the real reason; that the country Democracy think "somebody has blundered, and they "want to know what it means.' That country Democrat's indignant inquiry is very natural and proper, but he should have sent his queries to the *Republic*—not to the *Post*, which the Convention, at the bidding of the bond-holding Pittsburgh clique, repudiated the other day.

THE character of the efforts which the Copperheads are making to awaken the prejudices of Jewish voters against General GRANT may be inferred from the facts stated in the annexed extract from the Indiana correspondence of the New York *Times:*

Two circulars have lately been addressed to a great many Jews of Republican proclivities in the Western States for the purpose of inducing them to join in this crusade against the Republican candidate for the Presidency. One of them is dated and mailed at St. Louis, and signed by a certain Isaacs, who styles himself a "Jewish officer," but who, it is said, can not be found in that city at at all. The other is got up in Chicago, and is not signed by anybody, but it is full of preposterous falsehoods concerning the opinions which, it asserts, Gen. Grant entertains in regard to the Jews in the United States. But these efforts are wasted. The Jews now already declare indignantly that appeals of this kind are insults to their common sense, and that if, as certain Democratic politicians have advised, mass meetings of the Jews should be called for the purpose of making demonstrations against Gen. Grant, their leading men would be the first to denounce the movement and the designing politicians who originated it.

THE House has determined to pass the Internal tax bill and throw upon the Senate the responsibility for any failure to enact it into a law at this session. It is very justly considered that the financial condition of the country, and the imperfections of the existing system, alike require a radical and thorough change to be made, and admonish Congress to accept no limited and special enactments of any kind as an adequate remedy for the present evils. It is insisted that the bill may be finally disposed of in a few weeks, by both Houses. Nevertheless, a strong effort will be made to adjourn before the bill is completed, and this effort may succeed, unless members are very clearly apprised that their constituents will be content with no record which shows that work of great importance has been neglected.

THERE is no doubt that if the Republicans had nominated Chase, there would have been a Grant movement, and that the name of the General of the armies, instead of that of the Chief Justice, would have been prominent at this time in connection with the coming Convention at New York.—*Cin. Commercial.*

So far as this paragraph means that the Democratic party, demoralized as its organization is, would cheerfully accept any candidate of popular and unobjectionable antecedents, it states what may be very probable. But it is simply absurd to suppose that Gen. GRANT has any sympathies or opinions in common with Copperheadism, or that he could have been adopted as their candidate without a surrender of their prejudices, and even of their record, even more marked than a nomination of Mr. CHASE would involve.

A NEW DEMOCRATIC CANDIDATE.

When, in 1844 and 1852. the Democratic Conventions offered entirely new and unexpected candidates to the people, the difficulties, affecting the party internally, which those nominations solved, were altogether personal in their character, and related in no degree whatever to any more serious dissensions upon questions of principle. No divisions of the latter character then existed to embarrass the Democracy, and new men, comparatively unknown, certainly not known to be candidates before the Conventions assembled, were finally nominated, merely because the Conventions could not reconcile their personal preferences among the more distinguished men.

It will not do for the Democracy to infer, from the success which attended their flanking movements on those former occasions, that the same game is to succeed now. It is a question not of men but of principles, which their Convention must meet this year. It is a conflict not with their political opponents only, but it is the bitterest of family quarrels among themselves, and about matters which go to the very essence of their political faith. The question is not what it was in '44 and '52, one of the greater or less popularity of several candidates, either one of whom could stand consistently upon the well-known and commonly accepted platform of the party, and between whom the choice was therefore only one of minor importance. The question to-day concerns principles, not men. Particular candidates are perhaps now urged with the greater pertinacity, because of their personal engagements to the politicians most active in their behalf; but, with the masses who demand the nomination of this man, or that, of PENDLETON, or of CHASE, the prominent consideration is that each of these men is the representative of political opinions the most radically antagonistic, and which, at least on the one side, involve the widest possible departure from the heretofore accepted ideas of the Democratic party. It is not now, we repeat, a question between CHASE and PENDLETON; it is between the proscription of a numerous race of citizens, or the equal privileges of all; it is between the live issue of facts and a politic and profitable acquiescence therein, or the dead and decaying issue of an obsolete condition of things, which lingers only in the ignorant and gross but yet potent prejudice of men who will learn nothing from experience, and concede nothing to the progress of the age.

The schism which menaces the New York Convention would be stripped of all its dangers, if the antagonism of these elementary ideas could be reconciled. Men are of but little consequence, if the Democracy can explore some new path by which to escape, consistently or not if only successfully, from a conflict of ideas which promises to split their organization clean down to its roots. The politician whose new chart shall guide them over a smooth sea, leaving Scylla and Charybdis, a white man's government or the equal rights of a common humanity irrespective of race, far away on the lee, will be master of the situation, and of the hour. But impossibilities are not worth trying for. No genius can falsify truth, and no degree of political tact can obscure the greatest accomplished fact of this generation. The living issue is too much alive, too vigorously present and overshadowing to be ignored or evaded.

If the Democratic politicians imagine that they can escape from the annoying complications of the present situation, by ignoring the two men most prominent as candidates, who are prominent only because they appear to be identified as the especial representatives of two diametrically opposite ideas, they will discover their mistake, if not when the Convention meets, at least very soon after. Take up whom they may, he must be the candidate either of proscription and prejudice, or of progress and of an expedient acquiescence in things as they are, practicable and immutable. On the one platform he will be ruined, and on the other he will be ruined no less. Their nominee must be defeated either way, and the sure method of making that defeat hopeless and eternally irreparable, would be to attempt to escape it by a Machiavellian compromise between the conflicting ideas. Most fatal of all expedients, what a fatuity it is which has so often led the politicians of that party to adopt it!

The same thing holds true of the financial question, another source of dissensions even more bitter, since the popular interests to be touched become personal even more than political. The Democratic party might possibly be guided cheerfully through any degree of compromise of mere political theories, but when you come to touch the pockets of the individual, you may be sure that he will consult his personal profit, and his politics will be nowhere. Now, does any one suppose that the wealthy magnates of Democracy will submit to the endorsement of a dogma which they already proclaim to be downright robbery? Will the non-bond-holding masses of the party in the West and South be content to swallow all their reiterated and indignant protests against those special concessions to wealth which, they hold, have neither law, justice nor equality in their favor? And will either of these sections of the Democracy be satisfied with a candidate who repudiates their opinions in that regard, or who is not openly, clearly, unmistakably committed to their own views of what is just and right?

No! gentlemen, this thing has gone too far. You may as well make your choice between CHASE and PENDLETON, for, if you ignore their names, the ideas they represent will survive them, and, whomever else you nominate, he cannot go a-straddle of these great questions, but must stand unequivocally and wholly on one side or the other. You cannot rid yourselves of the bond question by any compromise of men or misty diplomacy of words, nor can you shut your eyes to the fact that, in seven populous and yet powerful States, your utterances upon the higher and nobler question of Human Rights will be decisive of Democratic destinies. No one man living between the oceans can save you from the obligations of the hour. The charm of no mere name can overslaugh principles so high as the one of Manhood and Citizenship, or so deep as the other of Personal Interest. Any effort in that direction will be futile, and it will be the wiser part to meet the responsibilities of the situation boldly, and with a candidate, perhaps, whose personal prestige would help you much in tiding over the political shoals of the canvass. There will be no magic in a new name this year, and neither of the more familiar names can make matters worse than they are. With whatever candidate, PENDLETON, CHASE, or the unknown coming man who is mysteriously hinted at, you will be beaten in November as badly as in 1864.

THE FINALITY OF RECONSTRUCTION.

The New York *World* of the 13th, recapitulates the facts, which exhibit reconstruction as practically accomplished in seven of the ten late rebel States, and then, citing the guarantee of the Constitution, the decision of the Supreme Court in the Dorr case, and the actual admission of the Senators and Representatives, chosen by the new State governments, into the present Congress, proceeds to remark that these:—

Make a complete chain of obligations binding the Federal authority to sustain the new governments against any attempts to change them without their consent. We should be glad to see this argument refuted, but do not believe that it can be. If not, all further opposition to those governments will be idle and nugatory, and can have no other effect than to prevent the Democratic party getting control of them by success in the Southern elections. As we cannot annihilate obstacles by closing our eyes, we may as well take their full measure, and may consult how we may flank what we cannot surmount.

Very naturally, the *World* fails to see any wisdom in a continued opposition by its party to this immutable condition of things, while the policy of attempting to obtain control of the situation by success in the Southern elections is put with equal plainness and force. It is with this view, of course, that the Convention will be urged to such a declaration of principles as shall conciliate the colored vote of those States, instead of repelling it more than ever. Herein is presented very clearly the broad issue between equal suffrage and Northern Democratic principles. And acute politicians of that party cannot ignore the fact that the issue must be met in this canvass, on one side or the other, or the National aspect of Democracy will be eternally obliterated. It is the veriest folly for that party to be quarrelling about men, when a question so vital in its elements imperils the very existence of their organization.

A WANDERER'S NOTES.

Honesdale—Topography of the Country—Site of the Town—Structures and Public Improvements—The Cemetery—Coal Trade—Gravity Roads—The Railway System—Soil, Business and Politics of the County.

[Special Correspondence of the Pittsburgh Gazette.]

HONESDALE, June 12, 1868.

Issuing from Otsego Lake, in Central New York, the North Branch of the Susquehanna River flows in a Southwesterly direction, until it strikes the Moosic range of Mountains, in Susquehanna county, Pennslyvania. Failing to force a passage, it turns first to the West and then to the North, doubling upon itself till it falls back to Binghampton, where it receives a powerful affluent, the Chenango, coming from the North, near Utica. From Binghampton the North Branch flows westerly for thirty or forty miles, when it turns South and then Southeast, making what is known as the Great Bend.

In Wayne county, on a shoulder of the Moosic range, is a basin, not deep enough for a lake, but constituting a marsh of considerable extent. From this marsh issue, in different directions, three streams. One is named the Staruacca, which flowing North, empties into the Susquehanna, near Lanesboro. It is over the mouth of the Staruacca that the Erie Railway passes on a magnificent stone bridge of thirteen arches, and ninety five feet high. Another of these streams is the Lackawanna, which running South, passes Carbondale, Archbald and Scranton, and enters the Susquehanna near Wilkesbarre. The third of these streams known as the Lackawaxen, departs easterly, receives the Dyberry and the Paupack, and unites with the Delaware river, at the point where the Delaware and Hudson Canal crosses that stream on a grand wire-suspension acqeduct, constructed by Mr. Roebling, on the general plan of the bridge which connects St. Clair street in Pittsburgh, with Federal street in Allegheny. Each of these three streams, as well as the larger ones to which they are tributary, cut down through the high and rolling plateau of the district, to the masses of solid sandstone which constitute the foundation. Hence, they flow mainly in narrow gorges. Only in favored spots have the hills been washed away and an alluvial deposit formed of sufficient width to furnish spacious intervals.

The town of Honesdale is situated at the confluence of the Dyberry with the Lackawaxen. The former comes out of the north, while the latter comes from the west. They strike each other at right angles. The united stream goes on directly south, for two or three miles, when it turns to the east, holding in that direction till it meets the Delaware, one hundred and ten miles above Philadelphia.

Where the Lackawaxen and Dyberry meet quite a valley has been scooped out by the action of the waters, and a plain exists, a mile and a half long, and wide enough for three parallel streets and the Delaware and Hudson Canal, which here has its head. This valley is on the west side of the stream. From the edge of this valley the land rises sharply towards the west to an elevation of four or five hundred feet. Along the valley and up the slope the main part of the town is situated; the borough limits enclosing only the flats, while the larger part of the population live on the slope beyond.

On the east bank of the stream there is only space enough in the valley for a street and line of houses, while the rocks tower up, a sheer or overhanging escarpment, from four to five hundred feet high. Irving Cliff, the most conspicuous crag of all, rises at the junction of the waters, and stands out in the dim haze of twilight or early dawn like a giant sentinel, keeping watch over the repose of the valley.

Honesdale derived its name from Mr. PHILIP HONE, of New York, an enterprising merchant and active politician, who was one of the first managers of the Delaware and Hudson Canal Company. The town is thirty-odd years old and contains eight or nine thousand inhabitants.

The streets of it cross each other at right angles. The side-walks are all paved with dressed stone, and the streets are all lined on both sides with trees, mostly maples and elms, with a few ash and horse-chestnut, creating an overarch of shade during the warm season. There are spacious public grounds, also filled with trees and tastefully enclosed. These are soon to be ornamented with fountains. The streets are well lighted at night with gas, and the whole town is abundantly supplied, both for domestic and fire purposes, with pure water, brought from three interlocking lakes in the hills, four miles away. The distributing reservoir is on a hill, near the town, at an altitude of three hundred feet.

The main public buildings are the Court House, the County Offices, the Graded School, the Presbyterian, Episcopal, Methodist, Baptist, German Lutheran, two Catholic churches, and Hebrew Synagogue. The Presbyterian Church is a new edifice, built of North River brick, with red sandstone dressings, and has a superior organ. The Episcopal Church was built a few years ago, of rubbled stone, and has a fine organ. The German Catholic Church is of brick; while the Irish Catholics and the Methodists have recently purchased new sites, with the expectation of speedily erecting brick or stone edifices of the best description.

The dwelling houses are not built close together and on the lines of the streets, as is the case in most of the villages of this State, but stand apart and back from the highways, hid away in masses of foliage and flowers. Most of the dwellings are wooden structures, painted white with green blinds, though many are of brick and in highly elaborate styles.

This town is the seat of justice for the north-eastern county of the Commonwealth. It has little coal, and of the little it has no use is made. The Moosic range is the barrier of the anthracite coal fields, and these mountains enter the county at its southern extremity, and extend along the entire western border, leaving but little territory on the western side. From the tops of this range, looking eastward, the prospect is truly magnificent; almost the whole country falls within the compass of vision, presenting a gently undulating surface, marking with deep fissures or ravines where the water courses have cut their channels down through the earth to the rocky depths. In clear weather, far off to the eastward, eighty miles away, peak towering above peak, can be distinctly seen the the Catskill Mountains. The grand panorama is one that whoever looks upon will not speedily forget.

Up the Dyberry, beyond the limits of the town, is Glen Dyberry Cemetery, extending from the water's edge, over an undulating valley, and up the first acclivity, it presents a diversified surface. The landward sides are protected by a stone wall. The whole space is admirably laid out and ornamented. Indeed, Nature surpassed anything Art can do in the production of this beautiful spot. Abounding in clumps of young evergreens; having springs gushing from the hill-side, so copiously as to feed a pond that only required deepening to be converted into a charming lake; and possessing all other elements of beauty, that needed only to be subdued and chastened to bring out the highest effects; no spot has fallen under my observation that so symbolizes in its aspect that grateful repose of the tomb which buffeted and storm beaten men and women sigh for as the end of all weariness and disquietude. Grander sculptural adornments exist elsewhere, but a more delightful nook in which to lie down and be at rest when the tumult of life is over, cannot be easily conceived.

The only natural outlet of this county is the Delaware river, with a descending navigation, and that restricted periods of freshets. Thirty-five or forty years ago Mr. MAURICE WURTS, of Philadelphia, projected an improvement of this navigation, with a view to transporting anthracite coal across the Moosic range, and thence to New York. This enterprise expanded into the Delaware and Hudson Canal, running from Rondout, on the Hudson, to Honesdale, and now transporting near two millions of tons of coal annually.

From Honesdale, over the Moosic mountains, to Carbondale, 16 miles, to the mines, a railroad was constructed, at an early day, and on it the first locomotive in the United States was used, a ponderous English machine, bearing little resemblance to the modern engine. This railroad is now worked by inclined planes and gravity; that is, the cars are drawn up a steep plane by a stationary engine, and then run down a very gradual plane of greater or less length, until the descent is exhausted, when they are drawn up another sharp plane, and descent renewed. One of these gravity descents is ten miles long. Rattling among the hills, ten to fifteen miles an hour, without an engine, imparts a wierd-like aspect to the whole scene. Of course, gravity roads are constructed with two tracks, separated widely; one for loaded, and the other for empty cars.

The Erie Railway skirts the northern border of the county on the New York side of the Delaware river, and furnishes the principal inlet and outlet for travellers.

Ten or twelve years ago the Pennsylvania Coal Company built a gravity railroad from Hawley, ten miles below Honesdale, on the canal, across the Moosic mountains, and down the Lackawanna to Pittston, on the Susquehanna. This is, also, primarily a coal road. At first the coal was sent from Hawley by canal, the Pennsylvania Coal Company holding by contract the right to use half the lockage under the schedule of tolls determinable by the price of coal at New York. The contract not proving satisfactory, the company built a locomotive railroad, of broad guage, from Hawley down to the mouth of the Lackawaxen, fifteen miles, there intersecting the Erie Railway, and running over it, by agreement, to Newbury and Piermont on the Hudson. This branch has, the present year, been extended up to Honesdale.

The township of Sterling, the most southerly in this couty, is touched, by the Delaware, Lackawanna and Western Railroad, (broad guage,) running from Communipaw, opposite New York, over the New Jersey Central, by the addition of a third rail, to near Easton, whence it goes independently up to Scranton, in Luzerne county, and beyond, intersecting the Erie Railroad at Great Bend, in Susquehanna county. Over the western section, Central New York is supplied with large quantities of coal.

Still another railroad has been projected, to follow the Lackawanna from Carbondale up to the marsh, in which it has its head, and thence down the Starucca to Lanesboro, there crossing the Erie Railway and uniting in the Binghampton and Susquehanna Railroad, leading to Albany. It is understood that the completion of this link has been recently postponed.

More than half the townships of this county are already traversed by railroads, and in the course of comparatively a few years, most of the others will be.

The soil is admirably adapted to grazing, which its nearness to New York (130 miles) makes highly profitable. Rye, oats and buckwheat do as well as in any other region; wheat and corn, indifferently; potatoes and other esculent roots as well as any where else. Apples and pears thrive; but cherries, plums and peaches do not do well.

For ten or fifteen years past tanning has been, and still continues to be, conducted on a large scale, twenty establishments of the most extensive dimensions existing. But the hemlock forests are rapidly disappearing, and in a few years will be quite exhausted.

The first settlers of this district were from New England and New Jersey. A decided majority of the present inhabitants who are of American origin, are of those stocks. When the canal was commenced the Irish came in, and ten years later the Germans. Now, more than one half of the population of the county are foreigners. The Germans greatly surpass the Irish in thrift, and are acquiring property with marvellous celerity.

For many years the Democrats held undisputed sway; the county belonging to the 10th legion, (now the 11th district,) which has steadily given a larger democratic majority than any other district in the Commonwealth. However, for many years the Democratic majority in Wayne steadily receded, until, in 1860, it gave Mr. LINCOLN two hundred majority. The active Republicans becoming disgusted with the treatment they received from the party leaders at Harrisburg and Washington, relaxed their efforts, and the democrats again obtained a majority of five hundred. This was reduced last year to three hundred; with a fair prospect of being wiped out next October.

SCIENCE ADVANCES.

As soon as an article purporting to be of utility has been tested, and its merits endorsed by public opinion, unprincipled parties endeavor to replenish their depleted purses by counterfeiting, and substituting a spurious for the genuine article. Some time since, mercury, in the disguise of pills, powders, &c., was given for all diseases of the stomach and liver, while quinine was freely administered for the chills. At length HOSTETTER'S STOMACH BITTERS made its advent, and an entire new system of healing was inaugurated. The beneficial effects of this valuable preparation were at once acknowledged, and mineral poisons suffered to sink into that obscurity to which an enlightened age has consigned them. There have been many spurious Bitters palmed upon the community, which, after trial, have been found perfectly worthless, while HOSTETTER'S has proved a blessing to thousands, who owe to it their restoration to health and strength. For many years we have watched the steady progress of HOSTETTER'S STOMACH BITTERS in public estimation, and its beneficient effects as a cure for all complaints arising from the stomach, of a morbid nature, and we are free to say that it can be relied upon as a certain relief and remedy. Its proprietors have made the above preparation after years of careful study and sitting, and are now reaping the reward claimed by this valuable specific, and which they so richly merit. It is the only prepartion of the kind that is reliable in all cases, and it therefore demands the attention of the afflicted.

ADVICE TO CONSUMPTIVES.

DR. KEYSER says: "You want air, not physic; you want pure air, not medicated air; you want plenty of nutrition, such as plenty of meat and bread will give; physic has no nutriment; gasping for air cannot cure you; monkey capers in a gymnasium cannot cure you; and stimulants cannot cure you. If you want to get well, go in for BEEF AND OUT-DOOR AIR."—*Republic.*

He says further: Don't put off the first symptoms. "A little leak may sink a great ship;" a small sore in the throat, lungs or liver will soon involve the whole body. How often do we see people put off for a year or two what in the beginning could have been remedied for a trifle. The Doctor's advice is, and always has been, attend to the first symptoms of disease. Do not let the constitution become a wreck before you begin to mend; if you do, ten to one there will be no remedy. There is a remedy for every disease if taken in time. A slight sore throat or cough may be removed with comparatively little trouble; but a constitution, sinking and breaking to pieces by allowing these little troubles to accumulate is not so easy. Dr. Keyser's mode of lung sounding is unique, and as thorough as it is unique. There is not a spot or space over the whole surface of the lungs that he does not sound and investigate, and by so doing is enabled to supply the appropriate remedy.

600 MILES

OF THE

UNION PACIFIC RAILROAD

Are now finished and in operation. Sixty miles of track have been laid this spring, and the work along the whole line between the Atlantic and Pacific States is being pushed forward more rapidly than ever before. More than twenty thousand men are employed, and it is not impossible that the entire track, from Omaha to Sacramento, will be finished in **1869** instead of **1870**. The means provided are ample, and all that energy, men and money can do to secure the completion of this

GREAT NATIONAL WORK,

At the earliest possible day, will be done.

The UNION PACIFIC RAILROAD COMPANY receive:

I.—A GOVERNMENT GRANT of the right of way, and all necessary timber and other materials found along the line of its operations.

II.—A GOVERNMENT GRANT of **12,800** acres of land to the mile, taken in alternate sections on each side of its road. This is on absolute donation, and will be a source of large revenue in the future.

III.—A GOVERNMENT GRANT of United States Thirty-year Bonds, amounting to from **$16,000** to **$48,000** per mile, according to the difficulties to be surmounted on the various sections to be built. The Government takes a second mortgage as security, and it is expected that not only the interest, but the principal amount may be paid in services rendered by the Company in transporting troops, mails, &c. The interest is now much more than paid in this way, besides securing a great saving in time and money to the Government.

IV.—A GOVERNMENT GRANT of the right to issue its own FIRST MORTGAGE BONDS, to aid in building the road, to the same amount as the U. S. Bonds, issued for the same purpose, and *no more*. The Government permits the Trustees for the First Mortgage Bondholders to deliver the Bonds to the Company only as the road is completed, and after it has been examined by United States Commissioners and pronounced to be in all respects a first-class Railroad, laid with a heavy T rail, and completely supplied with depots, stations, turnouts, carshops, locomotives, cars, &c.

V.—A CAPITAL STOCK SUBSCRIPTION from the stockholders, of which OVER EIGHT MILLION DOLLARS have been paid in upon the work already done, and which will be increased as the wants of the Company require.

VI.—NET CASH EARNINGS on its Way Business, that already amount to MORE THAN THE INTEREST on the First Mortgage Bonds. These earnings are no indication of the vast through business that must follow the opening of the line to the Pacific, but they certainly prove that

FIRST MORTCAGE BONDS

upon such a property, costing nearly three times their amount, ARE SECURE BEYOND ANY CONTINGENCY.

The Company have abundant means in their treasury, and make no appeal to the public to purchase their Bonds, as the daily subscriptions are entirely satisfactory; but they submit that, for entire security and liberal returns, there is certainly no better investment in the market.

The Union Pacific Bonds are for **$1,000** each, and have coupons attached. They have thirty years to run, and bear annual interest, payable on the first days of January and July, at the Company's Office in the City of New York, at the rate of six per cent. in gold. The Principal is payable in gold at maturity. At the present rate of gold, these bonds pay an annual income on their cost of

NEARLY NINE PER CENT.,

AND IT IS BELIEVED THAT THEY WILL SOON BE AT A PREMIUM.

The Company reserve the right to advance the price of their bonds to a rate above par at any time, and will not fill any orders or receive any subscriptions on which the money has not been actually paid at the Company's office before the time of such advance.

Parties subscribing will remit the par value of the bonds and the accrued interest in currency at the rate of six per cent. per annum, from the date on which the last coupon was paid. Subscriptions will be received in Pittsburgh by

JAMES T. BRADY & Co., corner of Wood and Fourth Streets;
HART, CAUGHEY & Co., corner of Wood and Third Streets;
S. McCLEAN & CO., 75 Fourth Street;
PH. R. MERTZ, corner 5th and Wood Sts.;
ROBINSON BROS., 78 Fourth street;

AND IN NEW YORK

At the Company's Office, No. 20 Nassau Street, and by

JOHN J. CISCO & SON, Bankers, No. **59** Wall Street, and by the Company's advertised agents throughout the United States.

Remittances should be made in drafts or other funds par in New York, and the Bonds will be sent free of charge by return express. Parties subscribing through local agents, will look to them for their safe delivery.

A PAMPHLET AND MAP FOR **1868** has just been published by the Company, giving fuller information than is possible in an advertisement, respecting the Progress of the Work, the Resources of the Country traversed by the Road, the Means for Construction, and the Value of the Bonds, which will be sent free on application at the Company's offices, or to any of the advertised agents.

AT AUCTION, IN MANSFIELD,

On Thursday, June 18th, 1868,

AT **1** O'CLOCK P. M.,

A BRICK HOUSE,

In good repair, containing seven rooms and a good cellar, well and pleasantly situated for a private residence, with half an acre of land, on which is a good frame stable; a well of excellent water at the door; also, fruit trees and shrubbery.

Also, at same time and place, THREE FRAME DWELLING HOUSES and ONE BRICK HOUSE, with four rooms—all in the village.

In connection with this the undersigned will sell a large and convenient WAGON AND CARRIAGE SHOP and BLACKSMITH SHOP, located on the main street—an old and established business stand. Also, several LIGHT AND HEAVY WAGONS.

The above named property is six miles from Pittsburgh, situate on the Pan Handle R. R., within a few minutes' walk of the Station. It will be sold without reserve, as the owner intends to leave the place. Terms easy, and will be made known on day of sale.

HOBOKEN.

IMPORTANT AUCTION SALE OF

BUILDING LOTS,

And Sites for Suburban Residences.

HOMES FOR ALL.

Hoboken is situated on the north side of the Allegheny river, seven miles above the city, and on the line of the Western Pennsylvania Railroad. This property is unsurpassed for advantages of location, beautiful romantic scenery, air and water. It undoubtedly possesses rare attractions for those whose cultivated tastes and better judgment lead them away to seek for homes free from the dust, smoke and noise of the city. It is laid out in lots to suit all purchasers. That portion between the railroad and river is laid out in lots of **25** by **120** feet. Above the railroad, up to Ninth street, are four ranges of lots, **40** by **160** feet. Above Ninth street one range of half acre lots. Above this are several ranges of acre lots. The balance will be sold in quantities to suit purchasers, for suburban residences. This is indeed the most attractive sale of real estate that was ever offered at public auction. The lots will be sold without reserve—a chance to purchase a home at your price. Attend the sale,

On Saturday, June 20th, 1868,

AT **2½** O'CLOCK P. M.,

On the premises. Free excursion. Trains leave Depot at **11:30** and **1:30**.

TERMS—One-fourth cash; balance in five years. Plans at

FOR SALE.

A RIVER BOTTOM FARM OF **76** ACRES, **19** miles from the city, in Elizabeth township, Allegheny county, Pa., on the Youghiogheny river, one-half mile from Elrod's Station, on the Connelsville railroad; near churches, schools, stores, &c., in the flourishing villages of Boston and Green Oak. The improvements are a two-story brick house of six rooms, hall and cellar, a good frame bank barn with stabling underneath, and other outbuildings; a well of good standing water at the door, and several standing springs of water on the farm, and an orchard of **200** trees of selected fruits of apples, cherries, pears, peaches, quinces and grapes. This property being located near the line of the railroad, within one hour's ride of the city, makes it very desirable for gardening or a dairy farm; it is also a good and beautiful location for country homes near the city, lying immediately on the river, on the opposite side from the railroad. The West Newton Accommodation and other trains on the railroad afford certain and frequent opportunities of daily communication to and from this city. Will be sold as a whole or in lots of one acre or more, to suit purchasers.

Also, A FARM OF **173** ACRES, situated in St. Clair township, Westmoreland county, Pa., near the line of the Pennsylvania Railroad, at Houston Station. The improvements are a two-story frame house, with six rooms and good cellar, a frame bank barn **40** by **60** feet, and other outbuildings. There is on the place a young apple and peach orchard; **120** acres cleared land, divided into fields of convenient size, a large portion of which are well set in clover and timothy; the residue of said tract covered with good timber. It is well watered and underlaid with coal and limestone, and is convenient to churches, schools, stores, mills and blacksmith shops. A real good bargain is offered in this excellent farm; and with it will be sold all the personal property on the premises, consisting of horses, cows, stock cattle, hogs and poultry, harness, gears, wagon, plows, farming implements and household and kitchen furniture. Together will be sold very low and on easy terms, to a responsible purchaser.

Also, a desirable and very fertile Tract of Land of **158** ACRES AND **25** PERCHES, in Elizabeth Tp., Allegheny county, Pa., on the line of the Hempfield railroad, and one and one-half miles from the Connellsville railroad at Suter's Station. On this farm are **40** acres of superior white oak timber, which alone is now worth one-half the price asked for the whole tract. The improvements are a log house, frame barn, good fencing, and an apple orchard of good fruit. It is well watered and underlaid with limestone, and has some of a superior quality, with stone coal for the use of the farm.

Also, The best FARM in Fairfield township, Westmoreland county, Pa., of **250** ACRES, about six miles south of the Pennsylvania Central Railroad at Bolivar Station. The improvements are two large hewed log dwellings; one of the largest and best frame barns in the township; two apple orchards, in good bearing condition; corn crib, wagon-shed and other outbuildings. The whole farm is under a high state of cultivation; fencing all in first rate order, and the land of the best quality of limestone soil, about **200** acres of which is cleared and the residue of the tract in good timber, such as white oak, rock oak, hickory, walnut and beech. This property will be sold very cheap and on good terms, as the owner wishes to engage in other business. For particulars enquire of

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, SATUYDAY, June 13, 1868.

Gold remains firm to-day at 140, with slight variations. The renewed shipments to Europe, and the small coin reserve of the banks, seem to be the prime cause of the advance and firmness of the market. Commercial bills drawn against shipments of either cotton, flour or cereals, are scarce, and bonds unprofitable to ship abroad, since the decline in 5-20s from 73¾ to 72¾, whilst imports continue to be heavy. Government bonds are firmer to-day, but there is little investment demand, and purchases are principally on speculator's account, to run up the market to the high prices ruling during the past week. The dullness of business, and the consequent idle capital seeking employment, induce parties to buy coin at these high prices, merely for a temporary employment of their funds. Few of the large capitalists in the country, however, buy at present, their means being tied up in manufacturing interests or in lands. The repeated agitation, caused by the attempt to idnuce Congress to issue further amount of greenbacks or national currency, or issuing currency to take up the national bonds, has taken large sums of money out of the usual channels of business, it being invested in purchases of property from parties, who are rationally adverse to buying immovable property, and would rather keep their money idle in bank, awaiting some turn.

Stocks are firmer, but the transactions are light.

Mining shares are firmer, and Express shares dull at the decline.

Money is becoming easier to first class borrowers, but long paper and men of doubtful standing cannot find accommodations, but at the very highest rates of interest.

Business is very dull.

Closing quotations as received by Ph. R. Mertz, were as follows:

Gold, 140¼; 1881 bonds, 116¾; 1862 5-20s, 112¾; 1864 do, 110½; 1865 do, 110¾; Consols, 112½; 10-40s, 106½; 7-30s, 109¾.

Railroads—Cleveland & Pittsburgh, 87½; Fort Wayne, 111¾; North Western, common 69¾; North Western—preferred, 82¾; New York Central, 134¾; Erie, 70½; Old Southern, 89¼; Ohio & Mississippi, 29¾; Merchants Union Express, 28½; Western Union Telegraph, 37. Mining Shares—Corydon, 35; Quartz Hill, 125.

—Money markets in other cities present no change from the stagnation which has been prevalent for so long. In New York money is superabundant, and is being offered very freely at 3 per cent on Governments, and 4 to 5 per cent on mixed collaterals; but even at these rates is only partially employed. In Philadelphia money is reported to be far in excess of the demand, at 4 per cent on call, and steadily tending downward.

In Boston money is easy at 4 per cent on Governments as collaterals, and 5 per cent for ordinary call loans.

In some of the Western markets Money has been less abundant. Up to the present time Cincinnati bankers have been able to use all their funds, but Friday's dates from there report balances to mercantile accounts increasing beyond what can be employed by banks. In St. Louis, the *Democrat* reports Money at 3 to 4 per cent on demand loans, "while choice commercial paper is negotiable at 5 per cent. It will thus be seen that in all the cities, both East and West, there is more Money than can find employment, and the same general stagnation of trade prevails in each."

—The Allegheny and Pittsburgh Oil Company is paying another dividend of 1 per cent. at its office in Philadelphia. The Buchanan Royalty Oil Company is also paying a dividend of 1 per cent,

—The conversions of Seven Thirties at New York in the month of May were $67,149,850, and on the 4th, 5th and 6th of this month $2,645,200 more, giving an aggregate of nearly seventy millions. The deliveries of bonds in exchange for Seven Thirties are now of the issue of 1865. Bonds of the issue of 1868 will be ready in about a week, and those of 1867 again in about two weeks.

—Closing quotations received by James T. Brady & Co.:

Gold, 139½; U. S. 6's, 1881's, 116¾; 5-20's, 1862, 112¼; 5-20's, 1864, 110¼; 5-20's, 1865, 110¾; 10-40's, 106; 5-20's, January and July, '65, 112¾; 5-20's, January and July, '67 113¼; June 7-30's, 109¼; July 7-30's, 109¼; May Comp., 1865, 119,-30.

New York Dry Goods Market.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, June 13.—Weather quite hot, trade dull and prices steady at 12½c for all light makes of prints except Sprargues, which are held at 14c, but do not sell freely so long as the Pacific Merrimac and Dunnells are closed out at 12½c. All good dark styles, however, are worth 13½c. Print cloths are more slowly at 8¾c; Ginghams at 10¾a16c. Delaines at 23a25c, and heavy Brown Sheetings at 16½17c, while best heavy shirtings bring 14a14½c.

PITTSBURGH MARKETS.

OFFICE OF PITTSBURGH GAZETTE, SATURDAY, June 13, 1868.

The general markets have been dull during the week, which has just closed, the volume of business in the aggregate having been light, and no immediate improvement is looked for. For some articles, prices are higher, but this may be attributed to scarcity, and not to any improvement in the demand; in fact, on the contrary, almost every thing seems to be shrinking in value, and as yet the bottom has not been reached. Holders of Flour and Grain, apprehensive of what is coming, are anxious to realize, while purchasers, on the other hand, are buying no more than they can possibly help, and the same is true of other articles.

BUTTER—Is scarce and in better demand, and prime fresh solid packed, is selling at 23 to 25. Little or no roll Butter in market, as the weather is too hot to move it in that shape.

EGGS—Scarce, and with a good demand prices have still further advanced. We now quote fresh packed at 27 to 28, with sales reported at the outside figure.

ASHES—Sales of common Soda Ash reported at 4½c, and refined at 5c. Pearls, 11c.

GRAIN—Wheat is dull and irregular; the millers report that they are paying but $2,25 to $2,30 for Red, while we have a sale of 1 car No. 1 Spring reported at $2,35. The demand for Oats is better, though, as yet, prices are unchanged; sale of 1 car in bulk at 78c; 1 do do at 79c, and 300 bushels sacked at 80c. Corn is dull and irregular; sales of 3 cars Shelled reported at $1,06; 1 do do at $1,10; 1 car Ear in bulk at $1, and 250 bushs Ear at $1,08. Prime Ear Corn will sell readily at $1,08 to $1,10. Rye is quiet and unchanged; sale of 1 car at $1,55. No movement in Barley, and none in market.

POTATOES—Sales of 2 cars prime Peach Blows at $1,25. New crop are quoted at $7 to $8 per barrel, as to quality and condition.

HAY—Continues dull, and the supply of baled is largely in excess of the demand; we continue to quote at $15 to $20 per ton, the latter only for strictly prime Timothy.

MILL FEED—Is dull but unchanged; we continue to quote at $1,80 to $2 for Middlings, and $1,40 to $1,50 for Bran

PROVISIONS—Bacon is quiet and unchanged; 13½c for Shoulders; 16½c to 17½c for Ribbed and Clear Sides; 17½c for Plain Hams; 19c for Plain Sugar Cured, and 19¾ to 20c for Canvassed do. Lard, 18¼ to 18½c, for prime kettle rendered. Dried Beef, 22 to 23c. Mess Pork, $28 to $28,50.

LARD OIL—Is quoted at $1,23 to $1,2 for No. 2, and $1,44 to $1,45 for No. 1.

CONCENTRATED LYE—Has advanced and is now quoted at $7,75 per case.

CIDER—Sales of hard at $6 per bbl.

VINEGAR—Sales of pure Cider Vinega at 25c.

PIG LEAD—Sales at 10c.

LIME—Is selling at $2 per bbl.

CHEESE—Sales of Hamburg at 14c, and Factory at 15c.

DRIED FRUIT—Continues very du but nominally unchanged; small sales 6c to 7c for Apples, and 11½c to 12½c fo Peaches.

FLOUR—Is dull and neglected, but with out change. We continue to quote $10,00 to $10,50 for Spring Wheat; $11,50 $12 for Winter Wheat, and $14 to $15 fo fancy brands. Winter Wheat, extra, $9,0 Rye Flour, $9,50 to $10.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, June 13, 1868.

CRUDE—The Crude market has ben considerably excited all week, but to-dy, there appeared to be more excitement tan during any preceding day; indeed holers of spot oil, seemed to have it all their wn way, as they experienced no difficult in selling at a right sharp advance. Buers who, during the early part of the week refused to take hold at 11½ to 11¾ paid rom 12½ to 12¾, and even 13 to-day. Thesales were as follows; 1,600 bbls to arrive n this water at 13; 2,000 for June sellers opton, at 12¾; 5,000 all the year, buyers optio, 12½ at Oil City, buyer advancing $1 per bl; and 5,000 bbls, in different lots on Friday evening on spot, at 12½. We also heard of a sale for all year, buyers option, at 14, ts, but did not get the amount sold. At Oil City, it was reported that sales had been made at $5,10, and that holders, late in the day, were asking $5,20. It is reported that some of the producers have sold the entire production of their wells, for two, and even three weeks ahead, which, we understand, is a new wrinkle in the mode of doing business in the oil regions.

REFINED—The refined market was also very much excited to-day, and prices have still further advanced, though, as yet, the advance is not up to the advance in Crude. Sale of 500 bbls first half of Aust at 32c; 500 last half same month at 32½c, and 500 each from August to December at 32e, considered below the market. The last of June may be quoted nominally at 31c; first half of July at 31½c, and last half same month at 32c. Within the past ten days or two weeks there has been an advance of from two to three cents per gallon, and this evening the market seemed to close strong at the advance, with, apparently, more buyers than sellers. Antwerp has advanced to 47½ francs, on spot, with sales reported for future deliveries at 55.

ARRIVALS—The following are the arrivals of oil to-day:

Commissioner Rollins' Letter of Resignation.

WASHINGTON, D. C., June 8.

SIR: I have the honor herewith to transmit through you to the President the resignation of my office, to take effect upon the qualification of my successor, nominated by him and confirmed by the Senate. Justice to myself and respect for you require that I should give you briefly my measures for so doing. Immediately after the Philadelphia Convention, in 1866, there were numerous removals of Assessors and Collectors throughout the country. They were induced by political considerations, and produced a sad blow to the reputation and efficiency of the revenue service. They were made during a recess of Congress, and in all cases regardless of my wishes as Commissioner. I should have resigned my office long ago, had I not yielded to the judgment of friends who believed the public good would be promoted by my remaining in it. During the session of Congress next after the Convention referred to, many nominations of revenue officers were made to the Senate by the President, as there since have been, all of them without reference to any opinion I had of their fitness, while my numerous recommendations for removals of Assessors and Collectors, even for the grossest misconduct, have been almost universally disregarded. In accordance with the long continued practice of the Department, the appointment by the Secretary of the Treasury of Assistant Assessors, Inspectors, and other subordinate officers, in the several districts are made upon the nomination of the Assessors and Collectors. This practice is justice to those officers when faithful, insures harmony and co-operation, and locates responsibility for success of the Revenue laws. I do not object to this practice, and refer to it only to illustrate the importance of the offices of Assessor and Collector, and my inability, under existing circumstances, to elevate and control the service of which I have the ostensible charge. The Revenue laws are enforced in the Courts through the agency of the District Attorneys and Marshals. Of these, numerous changes of the character referred to in what I have said of revenue officers, have been made, and in many localities with like results. Oyer their appointment and continuance in office, it is needless to say that I have no control whatever, and have no assurance that the services they will render in the future will be more thorough and effective than they have been in the past. In brief, Mr. Secretary, the revenue laws, even in the most important localities, are badly administered by officers, either dishonest or incompetent, appointed without my approval, and whose removal I see no hope of securing. While I continue in office, I am sought to be made responsible for their failures, although I am absolutely powerless to prevent them. For these reasons, as well as to seek the rest which my health demands, and my efforts to discharge my public duties have hitherto denied me, I am constrained to retire from the Bureau in which I have labored since near the date of this organization. With a full appreciation of the kindness you have extended to me in all your personal and official relations,

I am, Sir, very respectfully,
Your obedient servant,
E. A. ROLLINS, Commissioner.

To the Hon. H. McCulloch, Secretary of the Treasury.

Crabs.

A gentleman at Annapolis fenced in a cove near the mouth of the Severn river and commenced the cultivation of crab on a large scale. He has put in about 4,000, and feeds them on coarse fish and any kind of refuse meat. A squad of them will attack a catfish, devour it in one night, and pick the bones as clean as a pack of wolves would pick a deer. The soft crab is only the hard crab with his coat or shell off. Before shedding his shell he is worth only half a cent in market; without he is worth a dime. He sheds his shell but once a year, and then remains a soft crab but a few hours, when a new shell is again formed. But few soft crabs are seen, owing to the difficulty of finding and capturing them in the "nick of time." This difficulty it is proposed to obviate by the herding process, where the stock can be examined every day, and as fast as a crab is found with his coat off, he is captured as a soft crab and marketed accordingly. The location of the crab pasture is at a point where the tide regularly ebbs and flows, giving the crabs a plentiful supply of their natural element.—*Washington Star.*

CURIOSITIES.—The Boston *Traveller* notices some rare and curious animals, imported from Calcutta. They are a water buffalo, cow and calf. The cow weighs about one thousand two hundred pounds, and has no hair. The skin looks like an elephant's, of a dull mouse color. The horns are broad and describe a complete circle; its ears are large and lap down. The calf is about a year old, and has coarse hair. A "sacred cow" and calf were brought in the same ship. These are pure white, and the expression of the cow is very pleasant, but it belies its looks, for one has to look out for its heels. Its horns are short and straight, with lap ears, and it will weigh about one thousand pounds.

IN THE recent meeting of the Grand Lodge of Good Templars, held at Richmond, Indiana, a delegate by the name of Needham was present from Kentucky to urge that the colored persons be denied admission to Grand or subordinate lodges of the order, but be allowed a separate ritual and pass words for an organization of their own. In the midst of a warm speech on his favorite theme, several colored men and women passed near him and gave a salutation of the Third Degree to the P. R. W. G. T., who promptly responded, just as though they were white folks. A ludicious scene ensued, and the orator wisely conclued to let the rest of his piece go unspoken.

NEW ORLEANS.—New Orleans papers report two cases of yellow fever and one of cholera on Friday. General fears are entertained that very much sickness will be experienced in the city during the present season. The streets are described as being in a most filthy condition, while the drainage canals are many of them filled with garbage, and unable to perform their functions. Furthermore the levee system is thoroughly out of order. Between National and State legislation the various improvement schemes have fallen through, and the consequent overflows increase the otherwise unhealthy condition of the city.

A NEW African exploring expedition has been fitted out in Dublin. A pretty little steam yacht, ingeniously constructed, has been built for the party. It is intended to be used in pursuing the exploration of Lake Nyassa from the point where Dr. Livingstone was last heard of.

THE Erie Railroad, Delaware Division, it is reported, will be abandoned, in consequence of the sum required to put it in thorough repair. Instead of spending $2,500,000 for this purpose, a new route, shortening the distance several miles, will be built.

Meeting of the Teachers' State Association.

The *School Journal* is discussing the propriety of changing the time of meeting of the Teachers' State Association. It now occurs early in August, which is about the middle of the summer vacation of both the public and private schools; thus teachers are either debarred from taking those distant trips for pleasure to which no other portion of the teacher's year is applicable, or entirely prevented from attendance at the meeting of the Association. In view of these facts it is suggested to consider the propriety of postponing the meeting till near the end of August, which will, in most cases, also be near the end of the long summer vacation. Thus can teachers participate in the proceedings of the Association without interference with their other engagements of business or pleasure; and thus may they pass directly from professional re-union with their brethren to the renewed duties of the school-room, refreshed with new ideas and invigorated by the contact.

There is no doubt that the interest taken in the cause of education never was more general or stronger than now, and we therefore look forward to the meeting of the next Teachers' State Association, as likely to be an assembly eminently distinguished for ability. While Pennsylvania is advancing rapidly in the cause of education, it is pleasing to know that her system is modeling that of distant States and foreign countries. —*State Guard*

THE POPUEATION OF CHICAGO.—A census of the city of Chicago has just been completed by the sanitary agents of the Health Commissioners. The enumeration includes the number and sex of the population, and their nativities, and the number of buildings, whether stores, dwellings, barns, workshops, or otherwise. The population amounts to 240,044, an increase from 1865 to 1866 of 61,505.

COUNTRY RESIDENCE FOR SALE OR RENT.—A large two-story double House, containing 10 rooms, including double parlor, with marble mantles, and all the modern improvements; 1 acre of ground, filled with fruit, grapes, berries, &c. Situated near Minersville, at the termination of the Wylie street Passenger cars. This is one of the handsomest locations in Allegheny county, and in a good neighborhood. Apply at W. A. HERRON'S Real Estate Office, 67 Grant street. mh25

CHEAPEST BUILDING LOTS in MARKET are those offered for sale in the thriving village of Allentown, adjoining the Birmingham line, and only fifteen minutes' walk from the end of the Monongahela bridge. This town is growing rapidly. Over $70,000 was realized for lots sold last season, and over fifty neat dwellings were erected during the season. As a special inducement to mechanics, we are willing to close the balance of the lots at the low price of from $200 to $350 each, and on terms easier than paying rent. We are on the premises every afternoon from 3 to 7 o'clock; or apply at our office, corner of Fourth and Smithfield streets. B. McLAIN & CO.

SECURITY AND COMFORT FOR

THE TRAVELING COMMUNITY.

J. B. HARRIS' SAFETY FIRE JACKET,

Car Heater and Moderator,

For SMOKE AND HOT AIR FLUES, dispensing with the use of Stoves and Fires in or about the Passenger or Baggage Cars, with the attachment to graduate the heat to any temperature that may be desired without the possibility of firing the car or cars to which the Jacket may be attached.

Having obtained of the United States Letters Patent for a Safety Jacket which is warranted to resist the most intense heat that may be adpiled to it in the position and purpose for which it is intended. It is a sure protection from accidents by fire, originating from defective flues, or where iron pipes are used as conductors for smoke or heat. It is applicable to all piping that may become overheated, and is warranted to give perfect satisfaction where wood or other combustible material may be placed in close proximity thereto. I am now ready to apply my invention to stores, dwellings, factories, ships, steamboats, railroad cars, &c., wherever pipes as conductors are made dangerous by being overheated and security desired. I will sell, on application, rights to manufacture or to use the above invention; also, territorial rights, to such as may wish to engage in selling privileges, either by State or county.

A Last Resort.

Charles Jenkins, of Lawrenceville, thinking he had lived a sufficient length of time in this heartless world, make an effort to leave it Friday evening, which, however, proved unsuccessful. Jenkins was married a few weeks ago, and since that time it is alleged he has been sponging off his friends, and a few days since his cruel father-in-law informed him that he must go to work and provide for himself. Having no taste for physical labor, Jenkins resolved to go to that land "where toil and labor ceases," and in order to shorten his journey through life, repaired to a drug store and procured a half ounce of laudnum, stating that it was for his wife. He had no sooner got hold of the vial, however, than he drank its contents. The druggist being on the opposite side of the counter was powerless to prevent him from doing so. He walked out of the drug store and went home, and the druggist, fearing that by some unaccountable mistake the laudanum might be strong enough to injure him, sent for Dr. Arnesberg, who put the would-be self-murderer through a course of physic, and Saturday morning he went to work. The dose he took was perhaps heavy enough to cause him to sleep comfortably over night, but nothing more, as it is stated that the druggist from whom it was procured is particularly careful not to make the article strong enough to produce death by any ordinary dose.

Died of His Injures—Coroner's Inquest.

Isaac Y. Little, the young man who shot himself while under arrest in a pawn broker's office, Fifth ward, on the 26th ult., died of his injuries Saturday morning. Little was arrested on a charge of obtaining money under false pretense, and while in custody of the officer requested to be taken to the pawnbroker's office referred to, stating that he had some articles there upon which he could raise the money, and he would then settle the affair. The officer complied with his request, and on arriving at the pawnbroker's Little asked for a pair of pistols he had previously pawned there. The pistols were handed to him and he immediately placed the muzzle of one of them to his breast and fired. The ball entered the right breast, below the nipple, and passing transversely through the body lodged in the muscles near the spine. He was at once removed to the Homeopathic Hospital on Second street, where he remained until Saturday about one o'clock, when he died. Coroner Clawson held an inquest on the body yesterday, when the jury rendered a verdict in accordance with the facts as stated above.

Desirable Suburban Houses at Auction.

Mr. E. C. White advertises to be sold at one o'clock, P. M., on Thursday next two brick and three frame dwelling houses, of one them with a large lot full of fruit and shrubbery in the village of Manchester; also a business stand with shop and stock. In referring for particulars to the advertisement, we suggest that the property offered, situated so near the city and so easily reached by rail, is worthy of attention. Numerous families in this city, if they would visit this delightful suburb, would gladly and profitably exchange their crowded and dingy houses in the city for these attractive outside residences. A second track on the Panhandle will soon be finished, and the Chartiers Valley road, to be finished next year, will probably give hourly trains to Mansfield, when these spots could not be purchased for less than thrice the price which they will be knocked down on Thursday to some parties shrewd enough to attend the sale.

Another Libel.

We stated in our issue of Saturday that Mrs. L. C. Trimble had made information before Alderman Strain charging the editor of the *Evening Advocate* with libel, and that a hearing would take place on Saturday. Since that time an additional article appeared in the columns of the *Mail*, which the lady or her counsel thinks contains libelous matter, and on Saturday morning another information was made. A hearing was had in both cases, but we have not learned whether the accused was held for trial or not, as the Alderman reserved his judgment in the case for further consideration. The editor has made information before the same magistrate charging Mrs. Trimble with keeping a bawdy house. The accused was held for a hearing on Wednesday.

The Poisoning Case—Prisoner Arraigned.

In the Court of Oyer and Terminer Saturday, Louis Lane, colored, indicted for the murder of his wife by administering poison, was brought up for formal arraignment. He plead not guilty to the charge, and, in answer to the question propounded by the court, stated that he had secured John C. McCarthy, Esq., as counsel. The court then fixed next Wednesday as the day for the trial, and suggested to Lane the propriety of consulting with his counsel in regard to the arrangements thereof. At this point Mr. McCarthy came into court, and, after stating that Lane was a poor man, he asked the court to assign counsel to assist him in the defense. His Honor then assigned John Haines, Esq., as assistant counsel, and Lane was remanded to jail for trial.

Executive Committee Meeting.

A meeting of the Republican County Executive Committee was held Saturday afternoon at the office of J. H. Ewing, Esq., Fourth street.

The meeting was called to order at three o'clock by Colonel Russel Errett, Chairman, after which the minutes of the preceding meeting were read by J. H. Stewart, Secretary.

The following gentlemen were appointed a Committee to secure committee rooms: M. K. Moorhead, E. A Montooth, Joseph A. Butler, John A Myler and J. H. Baldwin.

The Chair was authorized to appoint the several Standing Committees.

On motion, adjourned to meet at the Court House on Wednesday, the 24th inst, at two o'clock P. M.

Killed on the Railroad,

John Murnane, a brakeman on the Panhandle Railroad was run over and killed by a gravel train, near the Clinton Iron Works, Monongahela Borough, on Saturday evening about seven o'clock. It appears that he was lying asleep on the siding and the gravel train turned in on the siding the engine passing over him severing his head from his body. Coroner Clawson held an inquest on the body yesterday, when the jury returned a verdict of accidental death. The deceased was between thirty and thirty-five years of age and unmarried. He has been employed on the road for about two years as brakeman. The body was taken in charge by undertaker Devore and will be decently interred.

Local Taxes—Warning.—It will be seen by the advertisement of S. Allinder, Esq., City Treasurer, that the tax duplicates are now at his office, and a liberal discount is allowed by law on all taxes and water rents paid before the first of August, and that if payment is delayed beyond the first of November it will be fifteen per cent. higher than if paid before August. This material difference should incite all tax payers to pay up promptly and thus avoid the penalty of delinquency.

THE COURTS.

District Court—Judge Williams.

The case of Wm. Shaw vs. Lloyd & Reach was continued by the Court. The jury having failed to agree were discharged Friday evening.

The argument list will be taken up on Monday.

Common Pleas Court—Full Bench.

A petition for divorce from Wm. H. Friesel by Rebecca Friesel was presented and a subpœna awarded.

In the case of John Fernan vs. George Fosely, B. F. Lucas, Esq., was appointed auditor.

In the case of Eva Kennedy vs. W. W. Kennedy, R. D. Townsend was appointed commissioner to take testimony.

In the case of Thomas Valentine vs. Richard Allen, a bill in equity was presented and a motion for a preliminary injunction presented.

In the case of Price & Co. vs. J. S. Sproul & Co., leave was granted D. W. C. Carroll to take out of court $10,000. Bond in $20,000 approved and filed.

Following is the trial list for to-day:

Crimminal Court—Judge Stowe,

In the Court of Quarter Sessions Saturday morning, Matthew, Zierhuth, keeper of the Bohemian Hotel, on Penn street, was brought up on a charge of breach of the peace preferred by S. Vetterly. It was alleged that defendant had threatened "to burn the prosecutor and his buildings into ashes." A large number of witnesses were examined. Nearly all the testimony was given through an interpreter, as most of the witnesses were Bohemians. The case occupied about an hour and a half of the time of the Court. The defendant and prosecutor were each required to enter into recognizance in the sum of one hundred dollars, and each to pay their own costs.

John Oliver had a hearing on a charge of breach of the peace, preferred by John McMillan. The parties reside in the Fifth ward, Allegheny. The prosecuter alleged that the defendant threatened to shoot him when he was returning home from his werk. Oliver was required to give one thousand dollars security and pay the costs of the prosecution.

B. S. Morrison, Esq., asked for the discharge from jail of George McGooden, confined on a charge of fornication and bastardy. An affidavit was read setting forth that no hearing was granted to the accused previous to commitment. The commitment was made out by Justice Rudisil, of Sewickly. The Court fixed the bail at a hundred dollars.

Stuart Sampson, convicted of assault and battery, was called up for sentence on three indictments. In one case sentence was suspended, in the other two he was sentenced to pay a fine of five dollars each and the costs of prosecution. In two surety of the peace cases he was sentenced to pay the costs of prosecution. The Court said the sentence was made light in view of the fact that defendant intended to leave the city, and could probably do no more harm here. Sampson was told that it was to be hoped that he would not get into such an affair again.

Black and White Balmoral Skirts for $1,25, formerly $2—Bates and Bell's.

Who is Responsible?

We have heard numerous complaints from residents of Pipetown of the inefficiency of the police in that quarter of this great city, the inhabitants of which numbers over a hundred thousand, and the limits of which extend over untold acres of ground, all to be guarded, day and night, by one hundred men. Out of this number it appears that two are on duty during the night in the district of which Pipetown forms a part, and these two men are expected to travel a round of over two miles every half hour for ten hours, and preserve order within the jurisdiction. It is stated that almost every Saturday night a fight occurs on Second street, between Ross street and the Birmingham bridge, and last Saturday night at least a dozen fights took place. Such a state of affairs should not be tolerated, but with the present meagre force of policemen we do not see how it is to be prevented, as that district is as well provided for as any other portion of the city. Somebody is responsible, but we do not say who.

Bates & Bell's for Bradley's Skirts from 50 cents.

Select Pic Nic.

The select pic nic which will be held at McFarland's Grove to-morrow promises to be the grandest affair of the season. The managers, several of whom we are personally acquainted with, are gentlemen in the true sense of the word, and we have no hesitancy in saying to the public that the affair will be well conducted and that all who attend it will spend a pleasant day. They have very wisely determined to sell no tickets after to-day, and no person will be admitted to the grounds without a ticket. The fact that the same gentlemen who managed the charity ball at Lafayette Hall last winter so successfully have exclusive control of the arrangements of the pic nic, is a sufficient guarantee of its success. A special train on the Pennsylvania Railroad will leave the Union Depot at 10:30 A. M. for the accommodation of all who desire to go at that time. After that hour visitors will have to go by the regular train or the Oakland Passenger Railway.

Table Damasks from 50 cents—Bates & Bell's.

Malicious Mischief.

Thomas Linderfelter made information before Alderman Irwin, of Lawrenceville, Saturday, charging John Fay and William Robb with malicious mischief. It appears that Fay owns a house and lot adjoining the prosecutor's lot in Lawrenceville, and he alleges that the house of the latter runs over on his property. Friday morning, in company with Robb, Fay commenced tearing down that portion of the house referred to. They were arrested and held for a hearing.

White Sacques for $2,25—Bates & Bell's.

False Pretence.—Allen Bell made information before the Mayor, Saturday, charging David Thomas and John Donahue with obtaining board under false pretence. He alleges that they received boarding at his house and ran up a bill to the amount of twenty dollars esce by false and fraudulent representations. The accused were arrested, and after a hearing were discharged.

For Sale.—See advertisement of Valuable Property in the Eighth ward, Pittsburgh, belonging to B. C. & J. H. Sawyer, for sale, in to-day's paper.

Impressive Ceremonies.

Yesterday, the Sunday after *Corpus Christi*, one of the greatest festivals of the Catholic Church, was celebrated with unusual pomp and solemnity in St. Paul's Cathedral. Pontifical High Mass was celebrated, Right Rev. M. Domenec officiating at the altar, assisted by a number of priests, Rev. Mr. Burke acting as Master of Ceremonies. The festival is in thanksgiving and honor of the Sacrament of Holy Eucharist, wherein, it is held by the faithful, the humanity of our Saviour is really and substantially present in the host consecrated at the mass and preserved in the tabernacle upon the Catholic altar. A very solemn and impressive procession was formed, headed by one hundred little boys bearing lighted tapers in their white gloved hands and wearing blue sashes, an insignia of the Society of Holy Angels, to which they belonged. These were followed by nearly two hundred little girls clad in white with flowing veils, half of whom bore in their hands baskets of flowers, from which they gracefully strewed floral gems before the feet of the Bishop, who carried the chalice containing the host. Clergymen, richly attired, and members of the congregation brought up the rear. The children chanted anthems of praise as the cortege moved with solemn effect through the broad aisles of the Cathedral. At the close of the service, the very excellent choir, accompanied by the great organ and the voices of the children in the auditorium of the church, sang the *Te Deum* in a beautiful and impressive manner.

No where else in the country is the pomp and grandeur of Catholic ceremonies more faithfully adhered to or more brilliantly interpreted than under the auspices of Rt. Rev. M. Domenec in St. Paul's Cathedral, and his zealous labors in that direction, as well as in all others pertaining to his religion, endear him to the members of his flock, and win for him high place in their love, respect and veneration.

Market Street.

In order to prevent as much as possible the crowded condition of Market street, the Mayor has issued an order prohibiting all teams not connected with the market from passing along the street between Fourth and Fifth streets until after twelve o'clock M. on Market days. This order is a good one and its enforcement absolutely necessary, in consequence of the very contracted street and the vast multitude of persons assembled there during market hours. Its observance will be no inconvenience to any one, and will render the market far more pleasant and agreeable, as persons can then cross and recross the street without incurring imminent danger of being run over. We hope it will be strictly enforced.

Receiving Stolen Goods.

During the trial of Green Lee, a negro boy, indicted for the larceny of an over coat valued at seventy dollars, it transpired that Lee had sold the coat to L. Susman, a second-hand clothing dealer on Pennsylvania avenue, for one dollar and fifty cents, in consequence of which the Court directed Alderman Thomas to take the information of Lee against Susman for receiving stolen goods. In the meantime Lee was convicted of the larceny and remanded to jail for sentence, and Friday evening the Alderman, in accordance with the request of the Court, took the information. A warrant was issued, Susman arrested, and held to bail to answer the charge at Court.

Grenadines from 37½c—Bates & Bell's.

A Strange Case of Suicide.—Yesterday evening, between eight and nine o'clock, Jane McRoberts, aged about thirteen years, daughter of James McRoberts, residing on Middle alley, Allegheny, committed suicide by hanging. We were unable to learn the particulars of the unfortunate occurrence, further than that she was found by her father at the time stated hanging by the neck to a rope suspended from a hook in the kitchen. Coroner Clawson will hold an inquest on the body this morning.

Homes for All.—At Hoboken! At Hoboken!!—Great auction sale of Building Lots and Sites for suburban residences, at Hoboken, Saturday, June 20th, at 2½ o'clock P. M., on the premises. Free excursion. Trains leave Western Pennsylvania Railroad Depot at 11:20 A. M., and 1:50 P. M. Plans at Smithson, Vanhook & M'Clelland's, 55 and 57 Fifth street.

Surety of the Peace.—Ruth Ann Murray, a colored woman, made information before the Mayor Saturday, against Rachael Kenney and Sarah Richards, also colored, for surety of the peace. The parties reside on Arthurs street, in the Seventh ward, and it appears are a common nuisance to the community. They were arrested and held for a hearing.

Assault and Battery.—Ruth A. Murray made an information before Alderman Strain charging Rachel Kenny and Sarah Richards with assault and battery, alleging that they attacked and beat her shamefully. The parties reside on Arthurs street. The accused were held to bail for their appearance at court.

Thriving.—The beer halls in the Fifth ward, or a number of them at least, were doing a thriving business yesterday, notwithstanding it was Sunday. The front doors were not open, of course, but the patrons knew how to effect an entrance.

Increase of Business.—The Mayor's court yesterday morning was an unusually large one, and must have been a rather profitable one to the city. As none of the victims were committed to jail we presume quite a number of them paid their fines.

Frightful Runaway.

A most frightful runaway occurred on Congress street Friday evening about eight o'clock, which, however, fortunately terminated without serious injury to any one. A young man, who, we were informed, was Mr. Piers, of the firm of Piers, Daniels & Co., was driving two spirited horses attached to a barouche, up Congress street, and when at the corner of Congress and Wylie streets the horses took fright and started to run. The driver held to the reins and did all in his power to check them, but all to no purpose. He managed to turn the corner at Webster street safely, and as soon as the horses started down Webster street they increased their already rapid rate of speed, and the driver, who, up to this time, thought he could manage them, discovering that they were rapidly hurrying out of his control, determined to make a last effort to check them, and seizing the left line with both hands pulled vigorously upon it and run the horses into a vacant lot, at the lower side of which there was a brick house. The speed at which the horses were running was so great that they could not check up in time, and the team collided with the brick wall with such force as to throw the driver over the horses against the wall, knock the horses off their feet, and run the vehicle upon them. The driver became entangled in the wreck, so that it required considerable time to extricate him. He was not seriously injured, however, but the barouche was badly broken up, and one of the horses considerably hurt.

The New Districts.

EDITORS GAZETTE:—The report of the Council Committee charged with the important duty of redistricting the consolidated city, which was published in Saturday's GAZETTE, fails to give the desired satisfaction, and from present appearances the ground will have to again be gone over and some more equitable and just division made. There does not appear to be any necessity for changing the boundaries of any of the old wards, with the exception, perhaps, of the Eighth, Third and Tenth. The Third was deprived of the Tenth during the war, as some allege, through political motives, and there would hardly be any objection to its again being pinned on to the district from which it was injudiciously taken. With the Eighth ward there is some difficulty regarding the boundaries, owing to the presence of Boyd's Hill, which is a natural dividing line. By putting the Tenth into the Third and making two wards of the Eighth, or what is better, making a single ward of the strip of land running from Ross street to Soho, along the Monongahela river, the labor of the Committee with the old city proper might rest. Members of Council cannot deal too carefully with the report when it is presented for their approval. CITIZEN.

Living in Germany.

There are at least three essentials in our domestic economy at home that cannot be found on the Europnan Continent; pies, hot bread, and rocking chairs. The American must resolve to make himself somehow content without a sight of either, from the time he leaves Sandy Hook. European counterfeits of all three may perhaps be found; the nice cold biscuit that I take every morning with my coffee must, I presume, once have been hot; pies I have chased like a mirage from city to city, and am now assured that they truly exist in some quarters of the city of Dresden, but I shall call it a myth till I see and taste.

A slanderous counterfeit of the Thanksgiving article was served out at what was called the American restaurant at the Paris Exhibition; but the stuff that was there called pumpkin pie a Yankee housewife would have given to the pigs. Yet a man may become content and even happy without a sniff of hot bread, living through the Winter in a room heated by a peat fire that is made up but once a day, and sleeping at night between two feather beds. There are, it is true, manifold soups and vegetable mixtures that come before one in a "questionable shape;" it is a little odd to eat bisbuit without butter and have the rice pudding spiced and sugared and mixed with the potato; but one gradually gets accustomed to these little eccentricities, and discovers culinary excellencies in the land of "kraut" that the uninitiated do not dream at.

There is one famous German delicacy, however, that I cannot take kindly to, at least as yet—the universal cheese. If I could shut my eyes and compress my nostrils while it was conveyed to my mouth, I cannot say what would be the result of the experiment, but these two senses decidedly and peremptorily object. To the eye it is a lightish soft soap, and to the nose it is a decomposed kitten. I have become quite reconciled to seeing a pretty fraulein making her supper on "schwarzbrod," Bologna sausage, and beer, but when she has lifted the cover from this odoriferous compound and spread a slice of it on her bread as if she loved it, I own that I have been obliged to turn my head away with a feeling akin to sea sickness. It is an odd association, but there is a German lady that always reminds me of the Straits of Dover. Those who have been churned in the sea for eight mortal hours, between Dover and Calais, and have at last crawled up from the steamer's cabin upon the European Continent, remembering nothing of the scenery but a string of horizontal passengers and dancing wash-bowls, will know what the law of association is.—*Prof. Newhall.*

The Alter Ego.

The New York *World* has an article on the probable candidate of the Democratic party for the Presidency, in which it assumes that the two candidates who will divide the suffrage of the Convention are Mr. Pendleton and Chief Justice Chase. People of ordinary perceptions regard these two men as the antipodes of political sentiment, but the *World* devotes more than a column of space and considerable of ingenuity to prove that each is the *alter ego* of the other. The way in which this apparent impossibility is established is curious, if not altogether satisfactory. The great divergence of the two men on the causes, the justice, and the natural sequences of the war, is cautiously avoided. Both, we are told, are statesmen, and both of views "positive and decided," but what these views may be is clouded in a drapery of words which leaves every body at liberty to shadow out their exact form to suit themselves. The issue of manhood suffrage, on which each of these gentlemen is known to hold views as wide asunder as the poles, is not even distantly alluded to. But on the financial question the *World* finds them perfectly agreed, and the way in which this similitude is established is so remarkable that we cannot forbear quoting a paragraph:

"They both insist on having the same currency for the laboring masses and for the bond-holders. Mr. Pendleton says: 'Give them both greenbacks:' Mr. Chase says: 'Give them both gold,' but they alike say 'One currency for all.' Mr. Pendleton and Mr. Chase alike desire to lighten the burden of the public debt. One would lighten it by paying the Five-twenties in a depreciated currency; the other by paying them in gold, and with improved credit negotiating a four per cent. loan. Pendleton would save a third of the principal; Chase a third of the interest."

This is the gentlest and most insinuating way of stating a difference that involves the question of paying one's debts honestly, or of repudiating them altogether, for the proposition to pay in greenbacks is only a half-way halting-place toward entire repudiation. Nevertheless, the *World* deserves credit for the ingenuity with which it gives prominence to Judge Chase as a candidate for the nomination and balances his claims with those of Mr. Pendleton.

A RECENT visitor at Jerusalem gives some of his impressions of that city as follows:

It is cavernous, disagreeable, damp, desolate, and very uninteresting. It abounds in caves and cisterns, acqueducts and tombs. Creeping into a little fox hole just outside the Damascus gate, we wondered for hours through spacious and lofty caverns undermining half the city—the ancient quarries discovered by Dr. Barclay. In Warren's recent excavations we grouped through arches and covered ways of Herodian time down to the original rock of Solomon's foundations. You are struck with the incongruity of new and costly modern buildings rising from among the rubbish and decay of the old city, and of no use, except for the pilgrims of all Christendom who watch with jealous care their respective rights in the Holy City, and are kept from biting and devouring one another by the sabre of the Turks. There are great empty places of desolation within the walls. Just inside the Drug gate I saw Jerusalem ploughed as a field, and got lost in the great cactus wilderness of the Tryopean valley, just where that magnificant causeway of Dr. Robinson's arch once connected Mount Zion with the Temple. Stumbling over dead dogs and garbage up the steep of Zion, I was run at by a cow who was just about tossing me on her horns when the herdsman came to my defense. And then g ing out of Zion gate I had to run the gauntlet of the lepers who there do congregate, whining horribly and stretching out their shapeless stumps.

THE author of "Prometheus and Atlantis," whose astronomical writings have attracted considerable attention, claims to have discovered a fact connected with the moon's motion which is, he says, fatal to Newton's theory of universal gravitation. His alleged discovery is, that in the moon's libration in longitude we see most of her eastern limb, when she is near her perigee, and most of her western limb when she is near her apogee; whereas, the text books all affirm, and Newton's theory requires, that we should see most of the moon's western limb when she is near her perigee, and most of her eastern limb when she is near her apogee. What have our Chicago star-gazers got to say about it?

—At the base ball match at Niagara Falls, Saturday, the Cliftons, of Buffalo, won both games, beating the Champions, of Suspension Bridge, by fifty-three to forty-one, and the Niagara, of Lockport, by twenty-one to fourteen.

JOHN PAUL has looked upon Saratoga "with its clothes off." He says of the trip: "The Adirondack Railroad is irregular in running. This is owing to the fact that the engineers and conductors catch trout along the road and cook them in the boilers, a practice which the superintendent is trying to discourage with praiseworthy earnestness, though himself fond of fish. I found the inhabitants of Saratoga all walking about with their hands in their pockets, looking for victims—getting their hands in, perhaps, in anticipation of the opening of the season. When visitors begin to congregate, they take their hands out of their own pockets and put them into other persons'. I acquired a deal of interesting information from the accomplished Secretary of the High Rock spring. He doesn't know what minerals enter into the water, and indeed nobody does, for the chemists have not yet got through with the analyzation, though they began their labors some fifteen years since. They have already discovered several thousand different salts, each salt stronger and differing in smell from the other, besides a number of other things which I have not time to mention. A trace of tadpole was found while I was there, with a vestige of another substance which looked like tan-bark and tasted like spruce gum. The water is direct in its action, stimulating the nerves, and beautifying the complexion, besides which it keeps the bowels open and gives a brilliant polish to the boots. About its healthfulness there can be no question, for I drank two tumblers full, and still live."

THE FASHIONABLE drive of London is a nightly block, and a pedestrian who visits it does so, the papers tell us, at the risk of his life. Half an hour may be spent at a given spot without the carriages opposite it moving a dozen yards. People stand three, four and five deep by the railings between the foot path and what is ironically spoken of as the drive. Those who sit down have their feet trodden on and their view restricted. Now and then, when the strolling, lounging, flirting crowd breaks for a moment, the whole of a carriage may be seen, but such opportunities are rare. The men standing about are arrayed in broad-brimmed, curly, low-crowned, shiny hats, coats so short-waisted as to seem all back, spotless linen, and low, bright shoes; and the ladies in the hideous color known as Bismark malade, in bronze, in olives, in the colors of carriage varnish, in short dresses and long dresses, in gay petticoats and in straight, stiff, short robes. Observe that all this is because capricious fashion has pitched upon the most inconvenient portion of the park, the really beautiful parts of which are comparatively deserted. In despair the duchesses are appealed to. "Let a dozen duchesses," says one, "frequent the serpentine banks or the road by Kensington Gardens for a week, and the difficulty is solved."

THE Chattanooga *Republican* records the strangest accident we have heard of. The other day a man was plowing near Missionary Ridge, when the plow run over a brass cartridge, which went off, the ball passing under his nose and glancing his mustache. It caused his nose to bleed profusely, though otherwise he was not hurt.

A WASHINGTON special says: Mr. Moorhead introduced a supplementary tariff bill, which was recommitted to the Committee for revision. Its provisions are moderate and fair, and the probabilities are that it may be passed.

FOR SALE.—HOBOKEN.—THE balance of those desirable Lots are now offered at private sale, and any one desirous of fine building sites would do well to make a selection. The village is located on a beautiful and healthy spot, two and a half miles from Sharpsburg, on the Western Pennsylvania Railroad, which runs through it, making it much more valuable and agreeable. Extensive preparations are now making for erecting a number of fine houses, which will prove an ornament to the town. The remainder of these Lots will be sold at very reasonable rates and on terms exceedingly easy. BILL & SHUTTERLY, Real Estate and Insurance Agents, Lawrenceville.
